Diabetes ²	117.1	80.0	43.3	73.1	150.8	189.6
Heart attack ³	217.8	109.9	--	17.3	203.8	531.2
Heart disease (includes heart attack) ³	844.1	556.6	--	79.4	668.5	2,554.5
Stroke (including ischemic attack) ³	245.9	204.7	--	25.1	198.9	860.2

[^] This number may be statistically unreliable and should be interpreted with caution.

-- This number is suppressed because it is statistically unreliable.

NA = Not applicable.

¹ Hospitalizations include only those where the indicated condition was the primary diagnosis. Rates are based on the number of hospitalized persons per 100,000 population. Hospitalizations do not include emergency department visits.

² Includes all ages.

³ Includes only adults ages 18 and over.

Source: Oregon hospital discharges dataset, 2017; age-adjustment is to the 2000 standard population.

Note: All rates are based on the number of persons hospitalized, not the number of hospitalizations.
