

Executive Order 19-09

Directing State Agencies to Take Immediate Action to Address the Vaping Public Health Crisis

Educational Outreach Guidance and Protocol

EDUCATIONAL VISIT SCRIPT

Hello, my name is [NAME] and I am from [NAME OF ORGANIZATION]. I'm here on behalf of the Oregon Health Authority to give you information about Governor Brown's executive order that bans the sale of flavored vaping products. Are you the right person to talk to or is there a manager or owner on site that I can speak to?

As you may know, Gov Brown banned the sales of all flavored vaping products in Oregon for six months. You should have received a letter last week with this information, but just in case, I brought a copy for you. I'm here to leave this poster for you in case you want to post it so that you can easily let your customers know about the ban. Also, I'm here to let you know where you can get more information. I'm not here to inspect today. OHA will be inspecting retailers, but that is not what this visit is. I'm here to give you information.

The Oregon Health Authority has a website, the link is on the poster right here and it's on the letter. The website has a lot of information about the ban and about vaping, in general. We're updating it regularly so you can always check back or call or email if you're looking for more information.

If you have questions, I can do my best to answer them here, but we're also collecting questions from the public and retailers through that website (www.healthoregon.org/vaping) so please email or call so your question can be recorded and answered. The Governor's office is also responding to questions about the executive order so if you have questions about why certain things are in the order, I recommend reaching out to her office (information on how to reach her office is also on the website here on the poster).

Thank you for your time.
