

Systems Change for Health™ Competency Based Training Series
2015-2016

Information for the Intro Course of the Systems Change for Health™ Competency Based Training Program series is listed below:

Intro Course: Introduction to the Systems Change Process (1-day training)
– detailed course information is attached

Portland, OR
DoubleTree Portland
September 17th, 2015
9:00am – 4:00pm

Note: This introductory course orients participants to the policy change process, including how a local or state coalition might influence both policy development and implementation. This course DOES NOT need to be completed before any of the other courses.

This course orients participants to the systems change process, including how a local or state coalition might influence both systems change and implementation. Through interactive exercises, lecture, and group discussion, participants become familiar with five topics: 1) defining social/health problems; 2) analysis to identify solutions; 3) advocacy to influence the systems change process; 4) implementation of an enacted policy; and 5) evaluation of systems change.

REGISTRATION INFORMATION:

Step 1: Please register on the Beatty Group website to reserve a spot and confirm travel accommodations: <http://www.event.com/d/7rq64>

Step 2: You will receive an email confirmation from Beatty Group for your registration. Next, you will need to register on the DHPE website to receive all training materials: http://www.dhpe.org/events/event_details.asp?id=658167

Information for **Course 1 of the Systems Change for Health™ Competency Based Training Program series is listed below:**

Course 1: Assessing and Framing the Problem (2-day training) – *A complete description of the course is attached*

Baker City, OR

Best Western Sundridge

October 28th and 29th, 2015

9:00am-4:30pm

During this 2-day, interactive workshop, participants begin developing skills for defining a health problem. The workshop guides participants in considering how problems are socially constructed in order to gain policy attention. They learn how health disparities and social determinants of health are investigated to reveal root causes of problems that can produce health inequities. Participants are introduced to systems thinking to clarify the scope of a problem, and to point toward the type of solution to pursue. The workshop introduces participants to skills for framing messages, and provides a 3-part structure for defining a problem for different target audiences.

REGISTRATION INFORMATION:

Step 1: Please register on the Beatty Group website to reserve a spot and confirm travel accommodations: <http://www.cvent.com/d/xrqvbs>

Step 2: You will receive an email confirmation from Beatty Group for your registration. Next, you will need to register on the DHPE website to receive all training materials: http://www.dhpe.org/events/event_details.asp?id=659254

Information for Course 2 of the Systems Change for Health™ Competency Based Training Program series is listed below:

Course 2: Analyzing Potential Solutions (2-day training) – *A complete description of the course is attached*

Eugene, OR

Valley River Inn

December 2nd and 3rd, 2015

9:00am-4:30pm

During this two-day, interactive workshop, participants develop skills for analyzing (comparing) and selecting policy/environmental solutions to health problems. The workshop introduces the need for policy analysis and its relationship to socio-political values. Participants learn about the policy process and how to leverage windows of opportunity for policy agendas.

REGISTRATION INFORMATION:

Step 1: Please register on the Beatty Group website to reserve a spot and confirm travel accommodations: <http://www.cvent.com/d/wrqvbc>

Step 2: You will receive an email confirmation from Beatty Group for your registration. Next, you will need to register on the DHPE website to receive all training materials: http://www.dhpe.org/events/event_details.asp?id=659257

Information for **Course 3 of the Systems Change for Health™ Competency Based Training Program series is listed below:**

Course 3: Influencing the Systems Change Process (2-day training) – A
complete description of the course is attached

Hood River, OR

Hood River Inn

February 24th and 25th, 2016

9:00am-4:30pm

During this two-day interactive workshop, participants develop skills they can use to advance health promotion initiatives and programs. The workshop draws from both theory and practitioner expertise to provide concepts, tools, and skill practice. Participants will learn how to frame and reframe messages, both on paper and in the context of a live conversation or interview.

REGISTRATION INFORMATION:

Step 1: Please register on the Beatty Group website to reserve a spot and confirm travel accommodations: <http://www.cvent.com/d/nrqvbr>

Step 2: You will receive an email confirmation from Beatty Group for your registration. Next, you will need to register on the DHPE website to receive all training materials: http://www.dhpe.org/events/event_details.asp?id=659267

Information for Course 4 of the Systems Change for Health™ Competency Based Training Program series is listed below:

Course 4: Implementing Enacted Policies (2-day training) – *A complete description of the course is attached*

Cannon Beach, OR
Hallmark Inn Cannon Beach
April 27th and 28th, 2016
9:00am-4:30pm

During this 2-day interactive workshop, participants develop skills needed for implementing enacted policy. The workshop will draw from both theory and practitioner expertise to provide concepts, tools, and skill practice. Participants will learn about bureaucratic structure and function, and how to assess and monitor the authorities and procedures used by agencies during implementation. Participants learn to apply critical thinking skills to analyze rules and regulations.

REGISTRATION INFORMATION:

Step 1: Please register on the Beatty Group website to reserve a spot and confirm travel accommodations: <http://www.cvent.com/d/8rqvhd>

Step 2: You will receive an email confirmation from Beatty Group for your registration. Next, you will need to register on the DHPE website to receive all training materials: http://www.dhpe.org/events/event_details.asp?id=659284

Information for Course 5 of the Systems Change for Health™ Competency Based Training Program series is listed below:

Course 5: Evaluating Systems Change Interventions (2-day training) – A complete description of the course is attached

Ashland, OR
Ashland Hills Hotel
June 8th and 9th, 2016
9:00am-4:30pm

During this 2-day interactive workshop, participants learn to plan an evaluation of a policy-change project. The workshop will draw from both theory and practitioner expertise to provide concepts, tools, and skill practice. Participants will use a 6-step evaluation framework. They will review evaluation research designs and methods; critically analyze logic models; develop evaluation questions; and select evaluation indicators.

REGISTRATION INFORMATION:

Step 1: Please register on the Beatty Group website to reserve a spot and confirm travel accommodations: <http://www.cvent.com/d/qrqvny>

Step 2: You will receive an email confirmation from Beatty Group for your registration. Next, you will need to register on the DHPE website to receive all training materials: http://www.dhpe.org/events/event_details.asp?id=659294

Note: The Systems Change for Health™ Competency Based Training Program series will be held back-to-back with OHA Grantee In-Person trainings. This is to maximize your travel time and budget. HPCDP GRANTEES – please review the [2015-2016 HPCDP Grantee Training Calendar](#). You can speak with your Community Programs Liaison to figure out which trainings best fit your work plan and needs.

If you have any questions, please contact shira.r.pope@state.or.us. Please register early as hotel rooms are filling up at the different locations!
