

Making it Real: Apply lessons learned and ideas to your own work plans

Based on recommendations and lessons learned to move Acme Industries/Rainbow Services towards implementation of workplace policies, how can you apply some of the lessons learned to your own TPEP/HC work plan? Think in terms of the activity areas currently in your work plan:

- Coordination and Collaboration
- Assessment
- Education and Outreach, Developing Local Champions
- Media Advocacy
- Policy Development, Promotion, and Implementation

What more do you need to know about employers and organizations in your community?

What strategies and activities would you include to strengthen your workplan?

Think about your supporters, opponents, other assets and barriers. What is your plan to move forward in this context?
