Partnership and Policy in Practice: Addressing Tobacco Disparities

This worksheet is designed to help you think about utilizing the **TCIP Model as a roadmap** for reaching your community's low socio-economic (SES) population.

Work in small groups to answer the questions on the back of this page. For each question think about your own region and discuss it with your group. Each region has its own set of characteristics; therefore your answers may be different. We will discuss your ideas as a large group at the end of the session. Think about what parts of the TCIP Model may be different for addressing tobacco disparities in your region.

## Target population

- Describe where your community's low SES population access services

## Partnership

- List potential leadership to engage in a Steering Committee
- List other community/agency partners to engage in workgroups

## Policy

- Choose a tobacco policy that can be addressed using the TCIP Model

## Implementation

- List any barriers or detours you may encounter
- What are some small steps you can take to address these barriers?
