

FREE Lesson Plan

“Antibiotics & You”

*Winner of the 2003 CDC award for excellence
in antibiotic resistance programming in the community.*

“Antibiotics & You” is an innovative, award-winning program designed to teach consumers about appropriate antibiotic use, reinforce “stay healthy” messages and help preserve our antibiotic lifeline.

Here’s what you will learn:

- The difference between viruses and bacteria
- How germs spread and what you can do to stay healthy
- How antibiotics work and when they are effective
- What you can do to prevent antibiotic resistance
- How to preserve our antibiotic lifeline

Everyone can benefit from this important health information. It’s FREE, it’s interactive and entertaining, it takes less than an hour of your time!

For more information, please visit our website at <http://www.healthoregon.org/antibiotics> or contact Tamara Peterson, Program Coordinator, AWARE Coalition at 971-673-0968 or tamara.g.peterson@state.or.us

**This is an excellent
in-service presentation
for healthcare professionals!**
