Early Syphilis Cases by Year, Columbia, 2007–2016

The Oregon Health Division HIV Surveillance Program does not publish counts of syphilis cases by age, race, sex or transmission group if fewer than 10 cases have been reported during the above time interval, county population is less than 10,000, or the estimated county population of any race group or age group typically used to group cases in its reports is smaller than 50. If you are a public health official from this county and would like to request estimates of syphilis cases in your county by age and race and sex, please contact the Oregon Health Division STD Program
