Tuberculosis Transfers Within Oregon

Contacts

To transfer a contact:

1 - Use “Tuberculosis Contact Investigation - Transfer Form”.
2 - Write your local health department’s (LHD) name in the “Referring LHD” box.
3 - Nurse case manager should write own name in “Referring Case Manager”.
4 - State Case # and Local Case # are optional.
5 - Complete entire “CASE INFORMATION” section.
6 - In “CONTACT INFORMATION” complete as much information as possible.
7 - Fax to the LHD. Call also if information is complex.

When contact follow-up is completed:

1 - Receiving Nurse case manager should write own name in “Receiving Case Manager”.
2 - The LHD who received the referral should indicate the results on the “Tuberculosis Contact Investigation - Transfer Form”.
3 - Fax the form back to the LHD who transferred it originally.

Cases

To transfer a case:

1 - Call the LHD you wish to transfer the case to. Discuss the situation with them.
2 - Fax a copy of the case report form along with any other requested documents to the LHD who is accepting the transfer.
3 - Call or email state TB Control and notify them of the transfer.

When the case has completed treatment:

1 - Fax case report form with completion data to state.
2 - Fax case report form with completion data to referring LHD.

Persons with Latent TB Infection (LTBI)

To transfer an LTBI:

1 - Call the LHD you wish to transfer the case to. Discuss the situation with them.
2 - Fax a copy of the treatment of latent tuberculosis infection form along with any other requested documents to the LHD who is accepting the transfer.

When LTBI treatment is complete:
1 - Fax treatment of latent tuberculosis infection form with completion data to referring LHD.
2 - Fax a copy to state if so desired (not required).

**B Waivers**

*To transfer B Waiver:*

1 - Contact state TB Control.
