

Oregon COVID-19 County Case Rates and Test Positivity by MMWR Week: July 5th - September 26th

This table is based on data pulled at 12:01 AM on September 28, 2020. For case counts and case rates, cases are assigned to a week based on their true case date, which is the date when public health first identified them as a confirmed or presumptive COVID-19 case. For percent positivity in testing, persons tested are assigned to a week based on their specimen collection date. All data are provisional and subject to change.

County	Week of Data Date	Case Count	Cases per 100,000	Test Positivity

Oregon COVID-19 County Case Rates and Test Positivity by MMWR Week: July 5th - September 26th

This table is based on data pulled at 12:01 AM on September 28, 2020. For case counts and case rates, cases are assigned to a week based on their true case date, which is the date when public health first identified them as a confirmed or presumptive COVID-19 case. For percent positivity in testing, persons tested are assigned to a week based on their specimen collection date. All data are provisional and subject to change.

County	Week of Data Date	Case Count	Cases per 100,000	Test Positivity
