OREGON HIV CASE MANAGEMENT

Wishing everyone a happy and safe Pride month!!

While we know that we are living in times that the LGBTQI+ community continues to be attacked because of gender identity, gender expression and sexual orientation, we know that our collective voice is as important now as it was 50 years ago. We also know that powerful and needed change does happen when we work together and stand up to defend and protect basic rights.

This Pride month, let us continue to stand with each other and raise our voices!

In Solidarity,

Julia Lager-Mesulam, LCSW  
Partnership Project Director

## Opportunities to raise your voice

### [Speak up for Health Care Rights Law– Section 1557](#)

The Administration is trying to create a regulation that would allow medical providers to not provide medical care to specific populations based religious exemption. This is another way to say discrimination! Find more information [here and make a comment!](#)

At the same time the **Equality Act** is being voted on in the House of Representatives. If passed this act would “expand existing federal laws to protect people from discrimination based on their sexual orientation and gender identity”
