

## Oregon Health Authority STD Prevention Program No-Cost STD Drugs

### BACKGROUND:

The OHA STD Program offers no-cost STD drugs under the state's MMCAP contract. The available drugs are in accordance with CDC-recommended first-line treatment regimens for syphilis, gonorrhea, and chlamydia. Drugs and dosages may change depending on availability and CDC guidance.

Drugs Currently Available	Strength and Form, Size	Order Quantity
Azithromycin	250mg tablet, 30 tablets/bottle	By bottle
Bicillin	1.2mu/2ml syringe, 10 syringes/box	By box
Ceftriaxone	500ml vial	By vial
Doxycycline	100mg tablet, 50 tablets/bottle	By bottle
Lidocaine	100mg/10ml or 200mg/20ml vial	By vial

### WHO CAN ORDER:

- LPHAs who maintain their own clinics and/or distribute Bicillin to community providers.
- Some LPHAs\* are required to order directly from suppliers under their individual 340B contracts and may request reimbursement. Other LPHAs may opt to do this as well – please contact the [STD Program](#) if you would like to implement this.

\* The following LPHAs are required to order 340B-priced STD drugs for LPHA clinic use directly from a supplier: Clackamas, Clatsop, Deschutes, Josephine, Lane, Linn, Marion, Multnomah, Polk, Umatilla, and Washington.

### ORDERING:

- Use the STD Program's [drug order form](#).
- The STD Program will contact you when your order is received and provide an expected delivery date.

### SHIPPING:

- LPHAs should receive orders in 2-3 business days unless otherwise arranged. All orders will be shipped using next day delivery.
- Bicillin will only be shipped Monday–Wednesday as it requires refrigeration upon receipt. It will not be shipped on Thursday to avoid any delivery delays, or on Friday as there is no weekend delivery.
- LPHAs should monitor inventory to submit orders in advance of any urgent situation. Due to staff scheduling and demands on postal services, urgent requests cannot be guaranteed.

### REIMBURSEMENT:

- LPHAs can request reimbursement for the purchase of 340B-priced STD drugs.
- Reimbursement requests should include an LPHA-generated invoice for the requested amount and a copy of the purchased drugs' invoice(s).
- Submit requests to Jennifer Li, STD Program Admin, at [jennifer.h.li@dhs.oha.state.or.us](mailto:jennifer.h.li@dhs.oha.state.or.us).
