

# Class Registration Form

Drinking Water Services (DWS) is offering the following classes:

- 1) [Essentials of Surface Water Treatment](#)
- 2) [Slow Sand Filtration](#)
- 3) [Conventional and Direct Filtration](#)

(click the links to learn more about each class, get driving directions, and preview class materials)

Participants may earn up to 0.6 Continuing Education Units (CEUs) for each 6-hr class attended. All classes cover surface water treatment processes including disinfection practices and regulatory requirements. The Essentials of Surface Water Treatment provides an overview of various filtration treatment processes. The Slow Sand Filtration and Conventional and Direct Filtration classes provide in-depth information on these specific filtration types.

These classes are designed for operators new to surface water treatment as well as experienced operators.

**COST: FREE HOURS: 9:00 am to 4:30 pm CEUs = 0.6**

Class space is limited (see maximum class size in parenthesis below), so please register early.

I wish to attend the following classes in Oregon:

## Conventional and Direct Filtration

CFDF - Eugene (30), Wednesday July 24, 2019

Keizer (30), Friday, September 27, 2019
