

**Oregon Health Authority Drinking Water Services
Fall Partner Training Agenda
November 16, 2022
9:00 a.m.–1:10 p.m.**

Goals: After attending the course, participants will be better able to assist water system operators with complying with regulations, operating their water systems under difficult conditions, and consistently providing safe drinking water to their customers. This training will update participants on OHA–DWS policies and procedures and improve awareness and understanding of the agenda topics.
