MONITORING WAIVER REQUEST FOLLOWING ORGANIC CHEMICAL DETECTION

Name of Water System:
Public Water System ID #:
Entry Point Name and ID:
Organic Chemical Name:
Name of Person Requesting the Monitoring Waiver:
Date of Waiver Request:

After the detection, was a confirmation sample collected? Yes No
If no, why not?

Was the detected contaminant previously detected at this water system? Yes No
• If yes, was the detection at the same entry point as the most recent detection and how much time separated the detections?

What was the possible source for the detected contaminant? For example, well maintenance or alteration, pump repair or replacement, well deepening, new discharge piping, new electrical wiring, electrical tape used to secure the pump wiring, etc.)?

Did any of the QA/QC samples (for example, trip blanks, duplicates, field blanks, etc.) included with the entry point sample test positive for the same chemical. Yes No
• If yes, please note the chemical that was detected as part of the QA/QC process and provide an explanation for the detection (for example, duplicate tested different from the positive sample which is indication of laboratory error or sampling contamination, trip blank was positive which is indication the sample was contaminated during transport, contamination occurred as a result of the analysis, etc.)?

Are there any contaminate sources in close proximity to any of the groundwater sources that supply water to the entry point where the detection occurred? Yes No

- If yes, please contact your regional hydrogeologist. Was the detection at the same entry point as the most recent detection and how much time separated the detections?

Was quarterly monitoring completed for the contaminant without any detections? Yes No

Was at least three years of annual monitoring completed for the contaminant without any detections? Yes No

Additional Waiver Conditions and Comments:

Notes:

- If waiver request was submitted by email or letter, please attach documentation to this form.
- See Monitoring [Waiver Request Following an Organic Chemical Detection Procedure](#) or attachment below for an explanation of the questions listed above.

VOC Waiver after
Detection Procedure

- After the waiver request has been approved by the Agency, please provide a copy of the completed form to the following:
 - Water System Contact
 - Portland Water System File
 - Technical Services Contact

For Agency Use Only

Waiver Request: Approved Denied
