Welcome to **Data Online**, [Oregon's Drinking Water Services](#) data access site.

Here you can access a fair amount of data on public water systems in Oregon. You can find data such as coliform testing, chemical testing, contacts, violations, enforcements, public notices, and basic system information.

If you don't know the water system ID number or are unsure, use the [WS Name Look Up](#) feature to find the system.
If you know the water system's ID number, use the [WS ID Look Up](#) feature to find the system.

Data shown here is "live" data. That means it's as current as the reports we have in our system. This is the same data that Drinking Water Services (DWS) staff see and use. If something is missing, that usually means it has not been reported to us or we have not entered it yet. If you (water system personnel, county staff, lab staff, etc.) find a report is missing, please forward a copy to us at: **DWS, PO BOX 14350, Portland, OR 97293**.

For all water system sampling, inventory, and compliance errors please phone Chuck Michael, DWS Compliance Officer, at 971-673-0420.

[Search Options](#) is where you'll find the various queries to view data we currently have. The choices are explained there.

NEW ADVISORY / SEARCH

[View all advisories](#)

Choose a water system to enter a new advisory or find an existing advisory:

PWS Number: OR41

or Search by PWS Name:

You can enter **part** of the water system's name (e.g., searching for **lion** will return Sea **Lion** Caves and Killions Market). Note that only exact matches will be returned and some symbols and words will not be accepted. [?](#)
