Presentation overview

- Counting population and connections
- Documenting interties
- Operator certification changes
- Locking / Unlocking
- Turning off password protection
- Inserting photos
- Reminders
- Other questions / issues?

Counting Population, per EPA memo

Population served =

of residential consumers

+

Avg # of regular consumers served, per day, during a month

+

Avg # of transient consumers served, per day, during a month.

Connections

- For Community systems, count the number of connections to different properties or year-round residences
- Many non-community systems are all on one property → one connection
 - Note: plumbing code applies to piping, not our distribution requirements (no deficiencies)
 - Do not count buildings as connections
- If a mix of uses on different properties, count properties

Examples

- A town on the coast has 500 permanent residents in 200 homes and another 300 vacation homes that are rented out. The town also has 2 hotels with 50 rooms, and many tourists visit the 30 restaurants and shops.

Examples

- A town on the coast has 500 permanent residents in 200 homes and another 300 vacation homes that are rented out. The town also has 2 hotels with 50 rooms, and many tourists visit the 30 restaurants and shops.
- # connections = 732
- Population = $500 + [300 \times 3 \times \text{occupancy rate}] + [50 \times 2 \times \text{hotel occupancy rate}] + [30 \times \text{estimated daily tourists}]$

Examples

- An RV park has 25 spaces, a store, a gas station, and the manager's home. 5 of the RVs have semi-permanent residents.

Examples

- An RV park has 25 spaces, a store, a gas station, and the manager's home. 5 of the RVs have semi-permanent residents.
- # Connections = 1
- Population = $[20 \times 2 \times \text{occupancy rate}] + [\text{store daily users}] + \text{manager's family} + [5 \times 2]$

Documenting Interties

- When discussing sources, ask if the system has any interties with nearby systems
- If so, list it as a source / EP
- Depending on how often it is used, it would be emergency, seasonal, or permanent
 - Manual vs auto, one-way flows, etc
- EP name would be “City of Good Neighbor #00123”

Emergency Systems Available:

Name:		PWS ID#:	41	
-------	--	----------	----	--

Operator Certification changes

- If changes have been made to the system, check operator certification requirement!
- If population increases:
 - Above 150 connections: WD1
 - 1501-15,000 people: WD2
- If treatment is added:
 - 4-log disinfection: WT1 is needed if > 150 conn
 - Adding fluoride, arsenic or nitrate removal: WT1
- <150 connections: Small Operator only

Survey Template Instructions

Survey Form Templates

-  [About Survey Template Packets](#)
-  [Survey Template Instructions](#)
-  [Instructions for adding an On/Off toggle switch for Word forms](#)
-  [Outstanding Performer Template](#)

The following documents are **password protected** (they currently open best in Firefox):

-  [Packet 1: C-NTNC Groundwater Survey Template](#) - revised 05/30/2018
-  [Packet 2: C-NTNC Surface Water Survey Template](#) - revised 05/30/2018
-  [Packet 3: TNC-NP Survey Template](#) - revised 05/30/2018

Survey forms overview

- Don't leave blanks, mark "Yes, No, or N/A"
- Comments sections
 - Follow up of "no's"
 - Allows for further details
- Information pages (back sides usually) to assist with filling in sections (service area, treatment codes)
- Deficiencies: check for consistency between cover letter, summary checkboxes, and forms

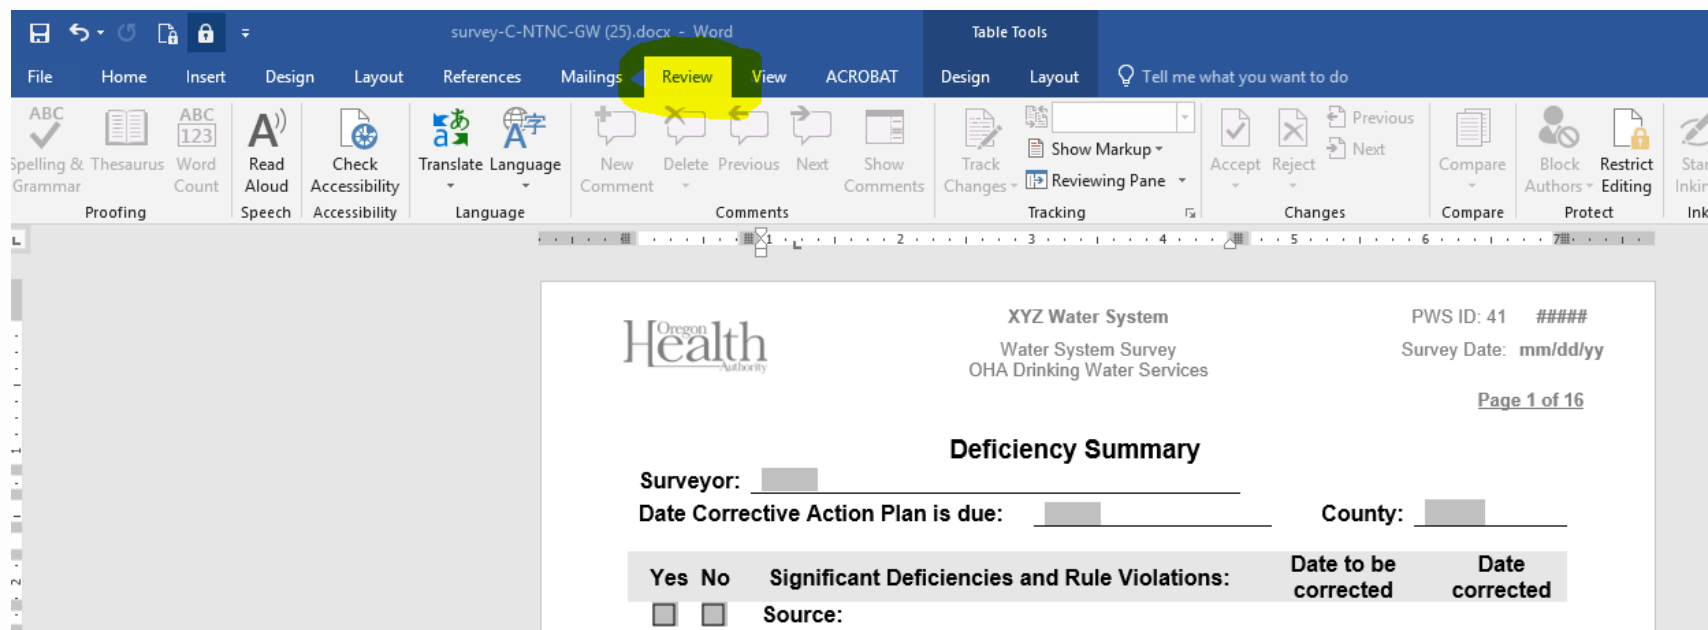

Password protected forms can be “Locked” or “Unlocked”

- Password prevents public from completing their own surveys (survey forms should be converted to PDF when e-mailing to water system operators).
- Survey forms are initially locked to allow only entry into form fields.
- Forms can be unlocked to allow inserting pages, photos, or schematics and then re-locked for form field entry.

Survey basics – editing document

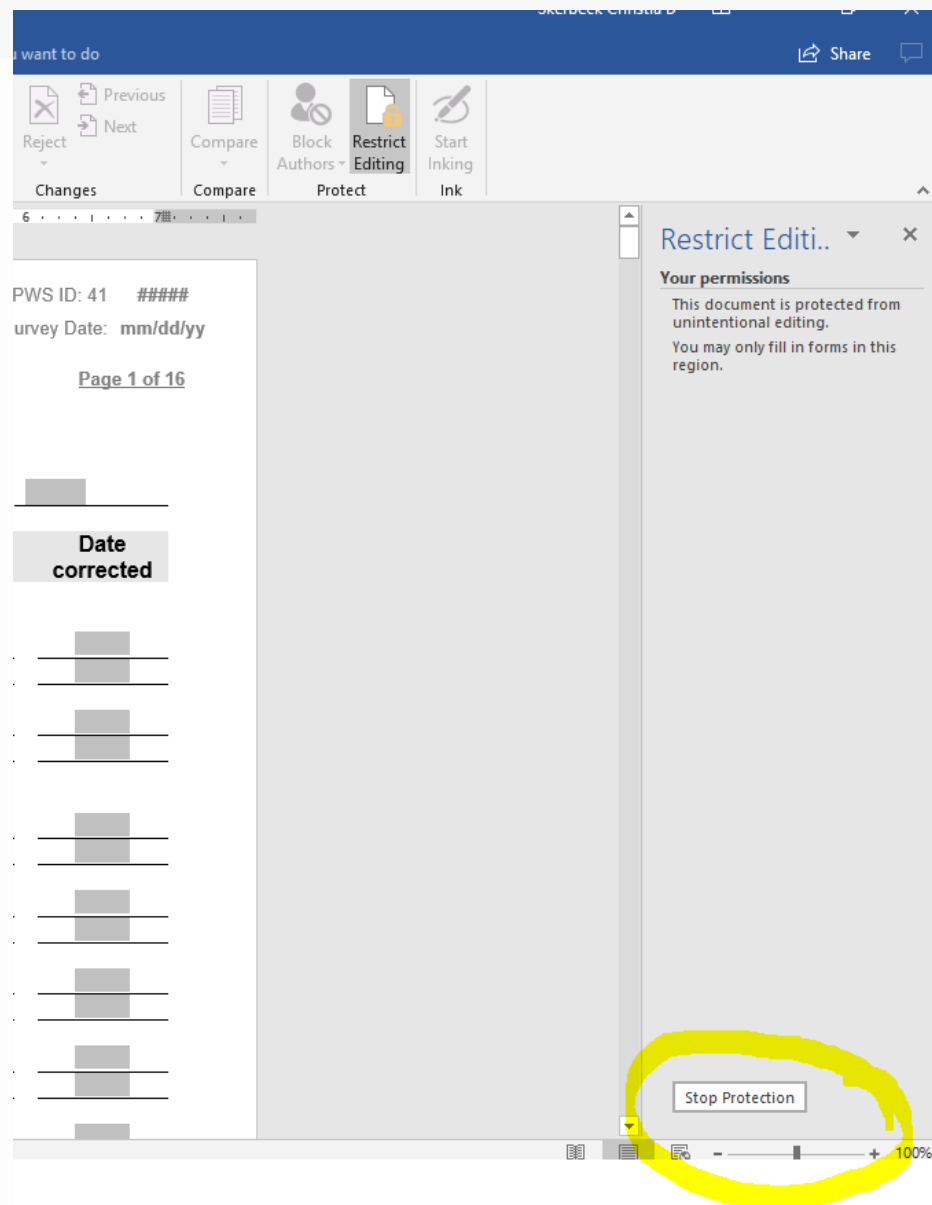

- Click on the **REVIEW** tab

1
5

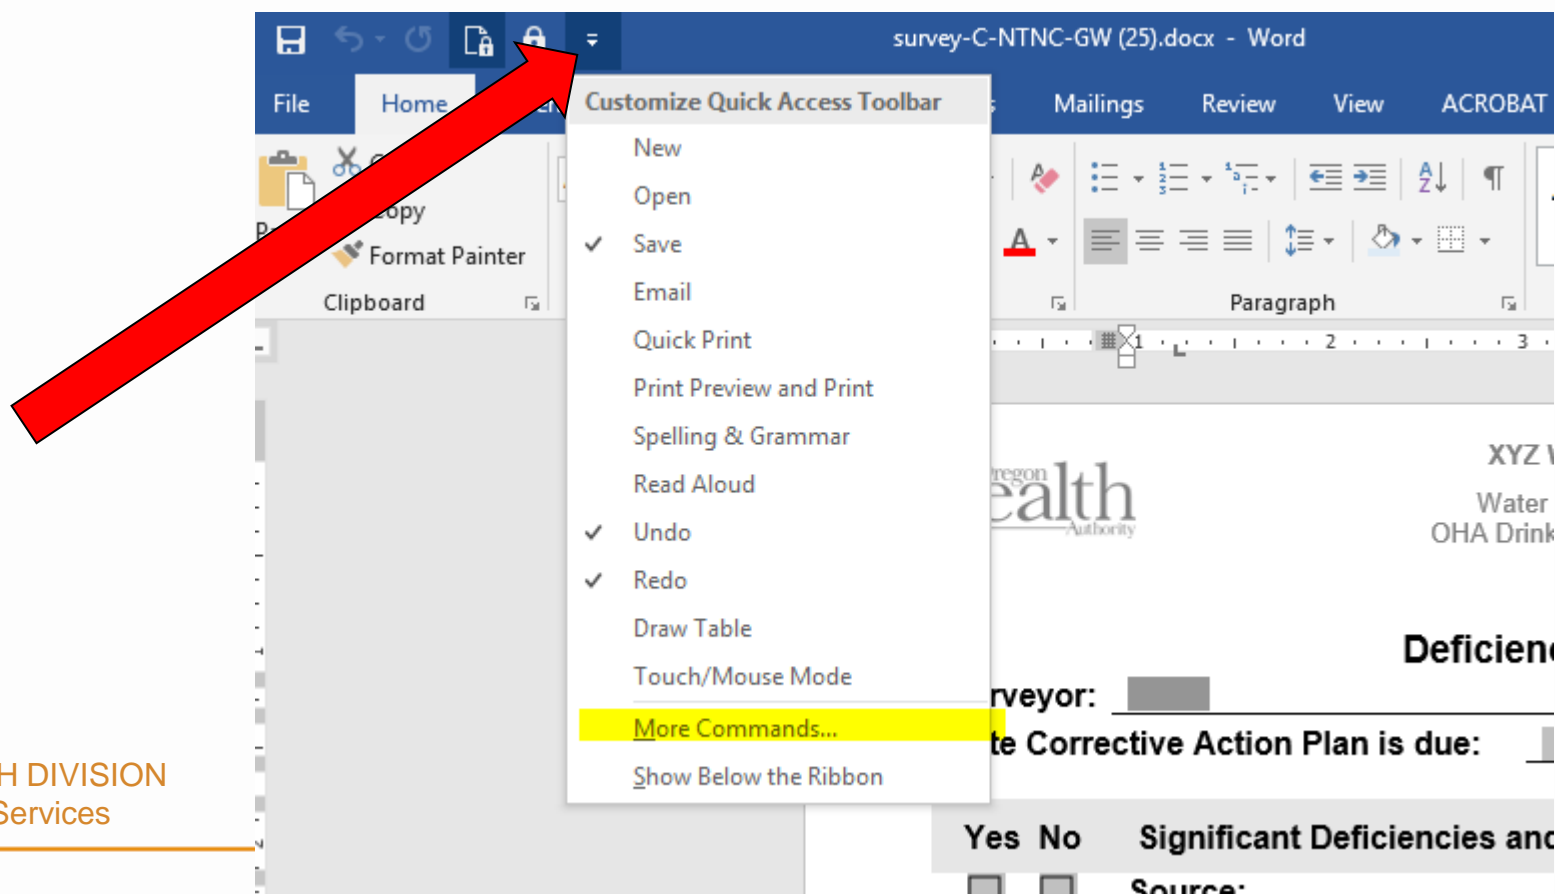

Editing

- Click on **RESTRICT EDITING**
- Click on **STOP PROTECTION**

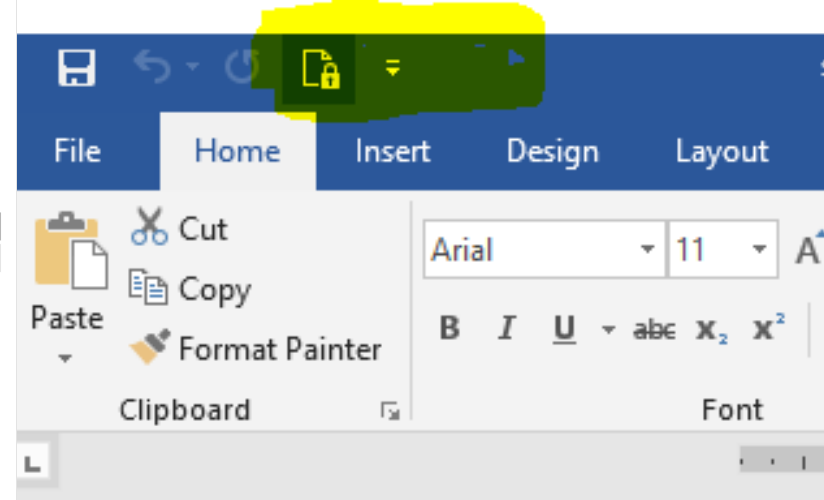

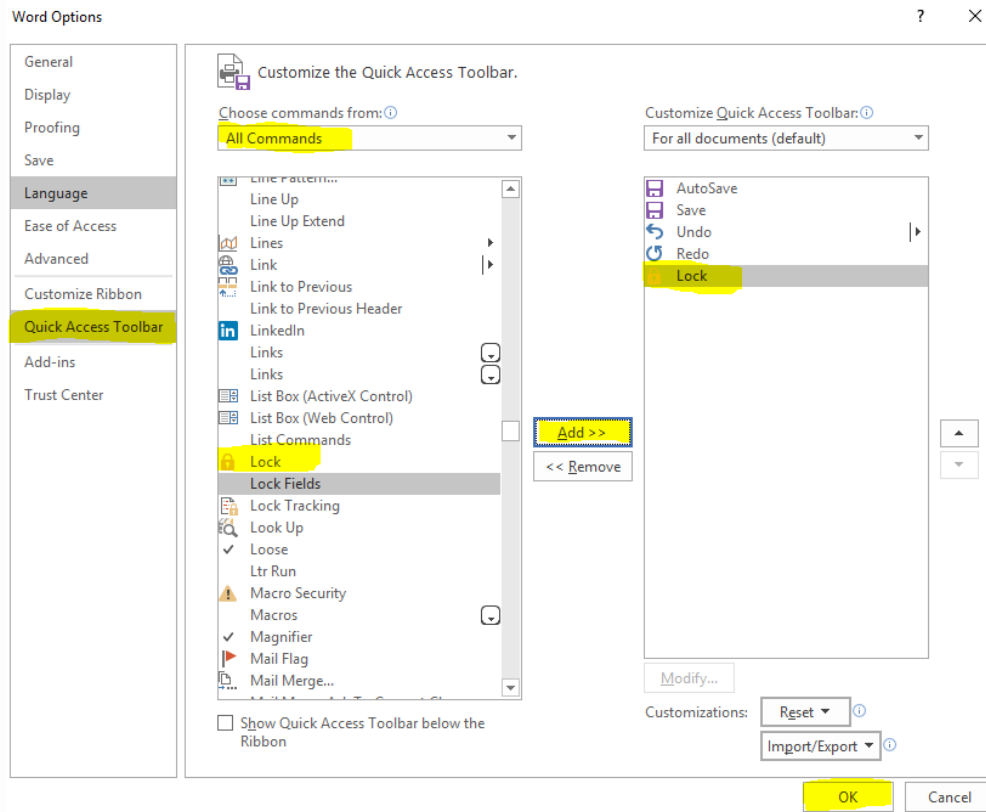

Add Lock / Unlock to Toolbar:

- Click the down arrow to **CUSTOMIZE QUICK ACCESS TOOLBAR**
- Click **MORE COMMANDS**

Select "All Commands" - then scroll to click on "Lock"
and then click "Add >>>" then "OK"

All Commands >>> LOCK >>> Add >>> OK

Using the tab and space bar

Lock form for editing (allows form field entry)

Use Tab button to jump from entry to entry

Use space bar to click the check boxes

Deficiency Summary

Surveyor: Evan Hofeld

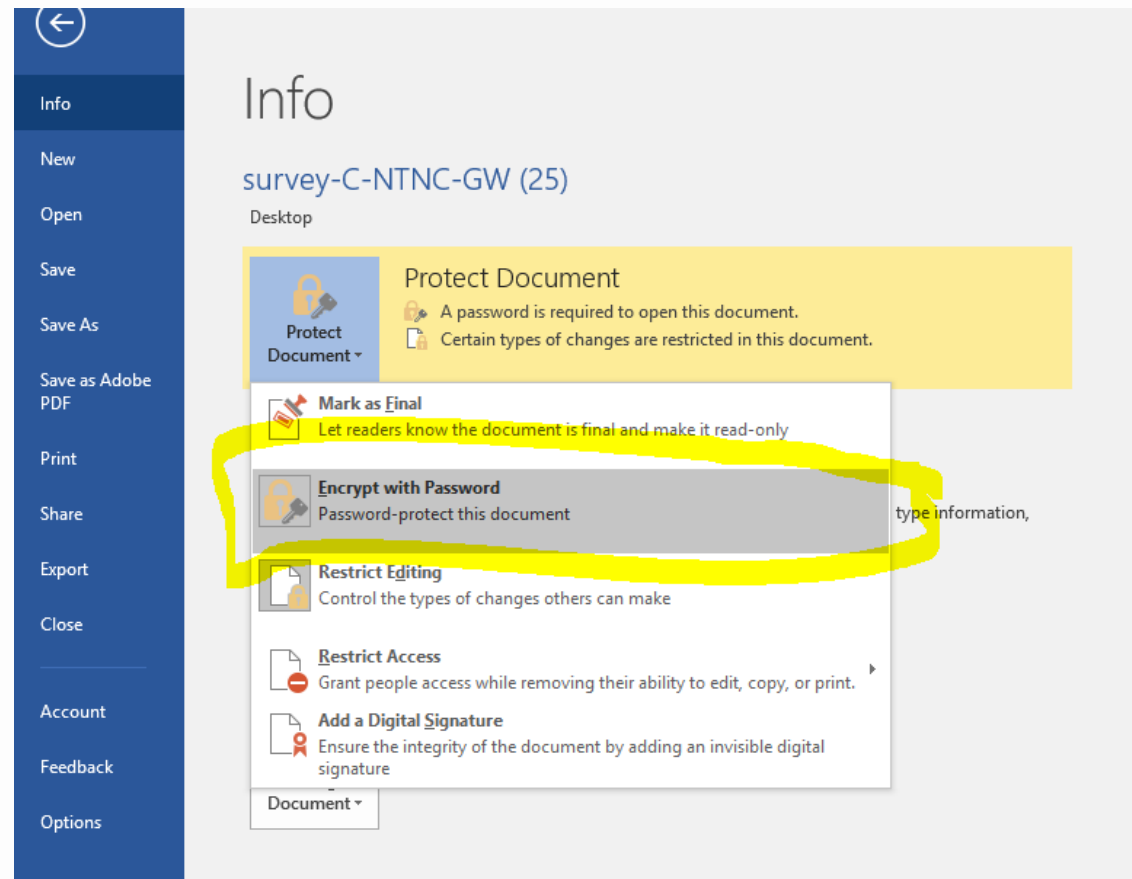

Date Corrective Action Plan is due: 5/31/19

County: Polk

Yes	No	Significant Deficiencies and Rule Violations:	Date to be corrected	Date corrected
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Source: Well construction:		

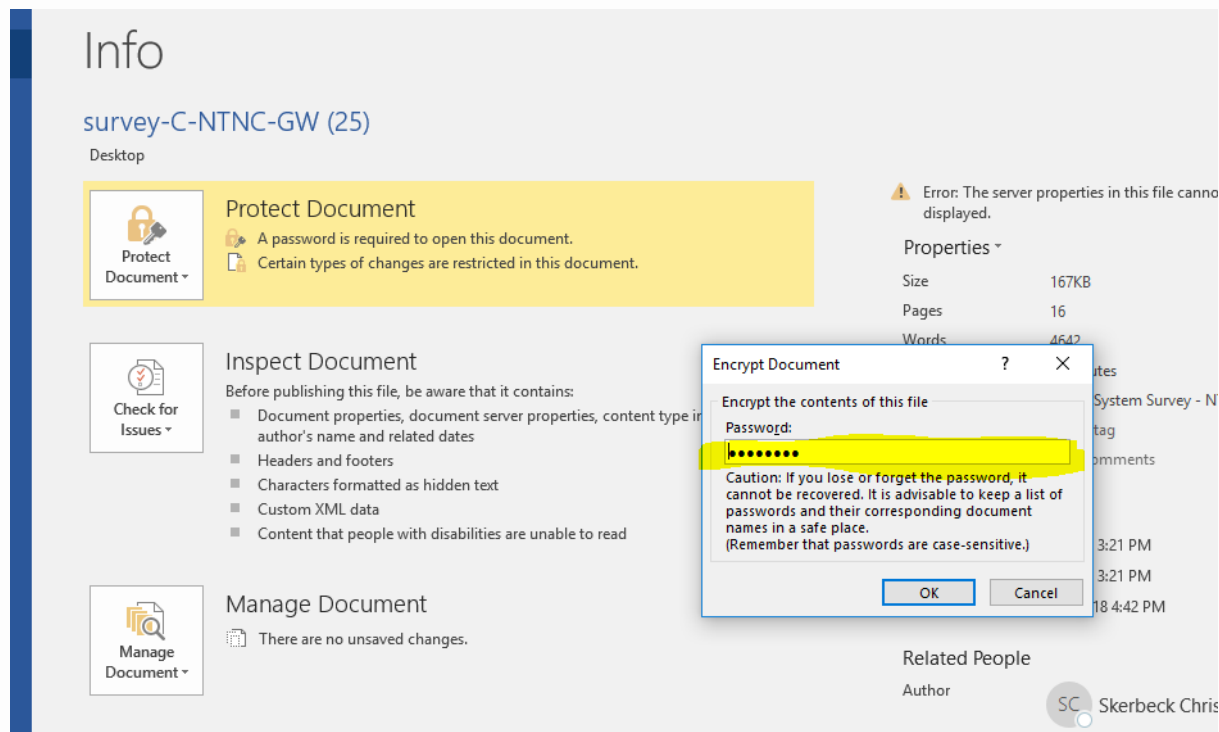

Removing password

- Go to File, Protect Document, Encrypt Password

Removing password

- Delete the password that is in the box

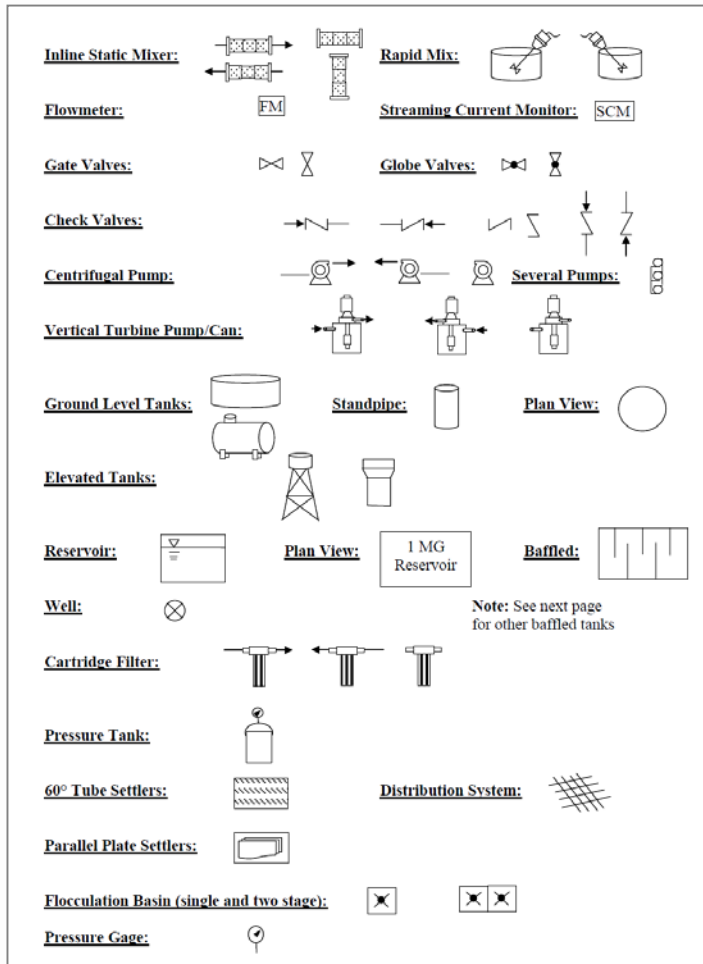

Removing password

- Click **OK**
- **Save** document as the name you'd like
- Anyone can open the document later without needing a password

Schematics

Symbols.doc

- Pre-made graphics to **copy & paste** into schematics page
- Easy to **move/re-size**
- Also contains example schematics

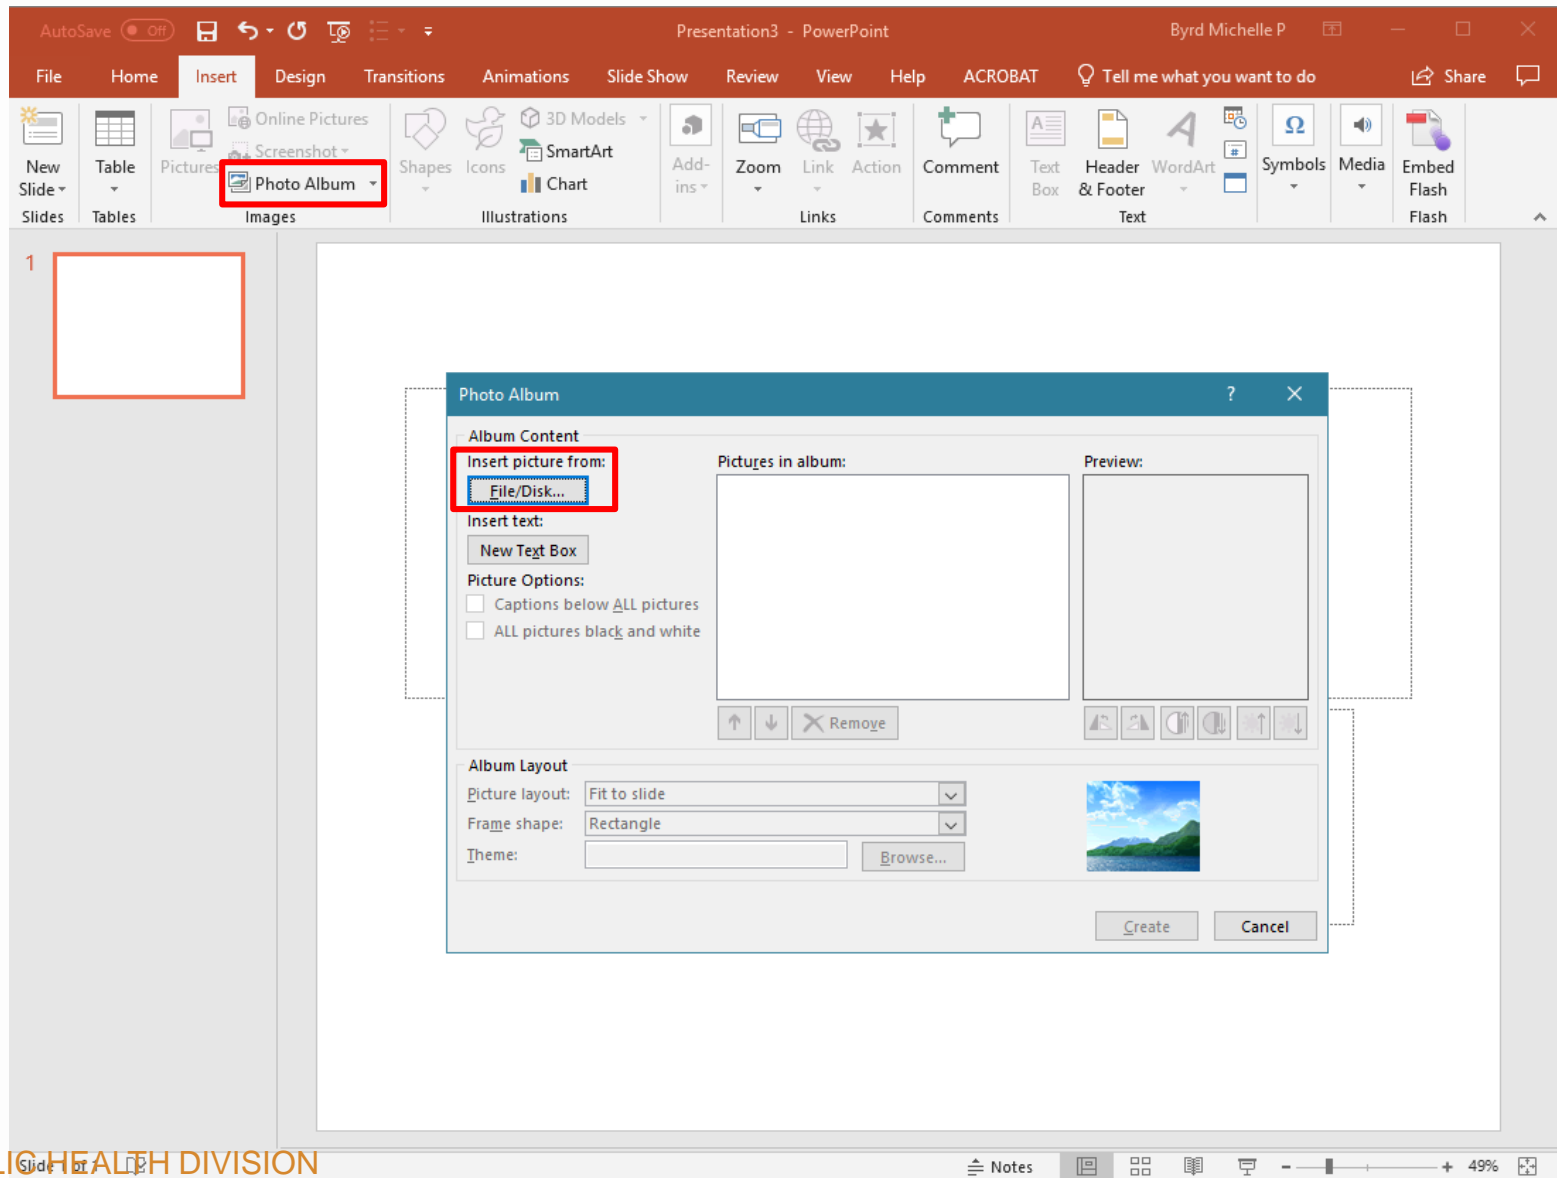

Documenting a survey with photos

- Photos can be a good way to document the facilities, but can also bulk up the survey report and your server unnecessarily

Using PowerPoint for Photos

- PowerPoint has a useful feature that allows you to import photos, organize them on a page and save as a PDF. Here's how:
- Open PowerPoint from your desktop
- Click **Blank Presentation**
- On menu, click **Insert - Photo Album**
- In Photo Album, go to **Insert picture from** and click **File/Disk...**

Using PowerPoint for Photos, cont'd

- Navigate to folder with photos
- Select photos to add
 - *To select multiple photos hold Ctrl key and click photo at same time*
- The selected photos will be listed in **Pictures** in **album** section

Using PowerPoint for Photos, cont'd

- A cover page will be created. You can delete this.
- To change background color go to **Design - Customize - Format Background** - click on color.
- To change format from landscape to portrait go to **Design - Slide Size - Custom Size - Orientation slides** and select Portrait.
- Name photos before adding them to album
- Album can be customized to meet your needs!

Outstanding Performer status

- If the Fee bill passes, DWS will likely no longer charge a survey fee.
- The fee provided an incentive for systems to become Ops (in addition to the glory).
- Other ideas on incentives??

Reminders - report

- Use the cover letter template!
- Check your survey report and letter to make sure black dot items, checklist, and letter match!
- Have your DWS contact review your survey if not yet cleared

Dear :

Thank you for your time and assistance in conducting a **Water System Survey at [Water System Name] on [Date of Survey]**. The main purpose of the survey is to evaluate the entire water system in terms of supplying safe drinking water to the public. I have enclosed a copy of the report for your records. Please let me know if any corrections need to be made.

Example Language - if deficiencies are found:

The first page of the report lists significant deficiencies and rule violations in the system that will have to be corrected as soon as possible. You must contact me within 30 days and correct all deficiencies and violations by **[18 weeks from the date of this letter]**, or be on an approved

Reminders - training

- Partners are responsible for on-boarding new employees to drinking water work.
- DWS can accompany a new REHS on a survey, meet up to ask questions, etc
