Operator Certification Requirements, Levels 1–4

Operator certification, as specified in this rule, corresponds ~~applies~~ to each of the levels of water system facility classification specified in OAR 333-061-0220(2) through (4), ~~and does not apply to small water system classification as specified in OAR 333-061-0220(1).~~

- (1) ~~In order to~~ To receive certification as specified in this rule, applicants must:
 - (a) Provide proof of, including the date of graduation or completion, a high school diploma, GED, associate's degree, bachelor's degree, master's degree, or PhD; and
 - (b) Successfully complete an examination for the level and type of certification sought by the applicant.

- (2) Minimum qualifications for water treatment (WT) or water distribution (WD) operator certification are identified in Table 46. Experience or a combination of experience and education is required depending on the certification and level sought. For the purposes of this rule, "post high school education" means that education acquired through programs such as short schools, ~~bona fide~~ correspondence courses, trade schools, colleges, universities, formalized workshops or seminars that are acceptable to the Authority and for which college or continuing education credit is issued by the training sponsor.

¹ Months of work experience required, as specified in OAR 333-061-0235(2)(a).

² Months of education required ~~for acceptance~~ as a substitution for work experience, as specified by OAR 333-061-0235(2)(b).

³ Months of operational decision-making experience required, as specified in OAR 333-061-0235(4). This experience may also count as general work experience.

- (a) Operating experience must have been gained through direct, "hands-on" operation of water system facilities and includes, but is not limited to, decisions related to water quality or quantity that may affect public health. Knowledge gained from the performance of duties as an official, inspector, manager, engineer, or director of public works, and that does not include the actual operation or supervision of water system facilities, does not qualify an individual for certification as prescribed by these rules.

- (A) For water distribution certification, experience in one of the following fields may be accepted, not to exceed one-half of the total experience required: wastewater collection; water treatment; cross connection control; and industrial or commercial process water treatment.
 - (B) For water treatment certification, experience in one of the following fields may be accepted, not to exceed one-half of the total experience required: wastewater treatment; wastewater treatment laboratory; water distribution; and industrial or commercial process water treatment.
 - (C) One year of experience is equivalent to 12 months of full-time employment with one hundred percent of the individual's time dedicated to activities directly related to the certification for which they are applying.
 - (D) Operating experience earned at a water treatment plant or distribution system is considered qualifying experience for certification up to one classification level higher than that of the water system facility where the experience was earned.
- (b) The Authority may, at its discretion, permit the substitution of post high school education for experience. Acceptable fields of study include, but are not limited to: allied sciences, chemistry, engineering, industrial or commercial water processing, wastewater collection, wastewater treatment plant operations, wastewater laboratory analysis, water distribution, and water treatment plant operations.
- (A) Substituted education may not exceed one-half of the experience required for the certification and level sought except for level 1 certification, where an Authority-approved certificate or degree can substitute for all the required operating experience.
 - (B) Any degree or accumulation of college credit hours must be from an educational institution accredited through an agency recognized by the U.S. Department of Education ~~to be acceptable.~~
 - (C) The following are considered equivalent to 12 months of post high school education:
 - (i) One year of college education;
 - (ii) Thirty semester hours of college education;
 - (iii) Forty-five quarter hours of college education; or
 - (iv) Forty-five CEUs.
 - (D) College credits and post high school education from other sources may be combined to total 45 CEU.
- (3) Individuals may request credit for on-the-job training as either experience or education, but not both.
- (4) Individuals seeking certification at water distribution and water treatment levels 3 and 4 must possess ~~experience in~~operational decision-making experience as defined in OAR 333-061-0020(87). Any work experience as specified in subsection (2)(a) of this rule qualifies as operational decision-making experience if it meets the criteria specified in OAR 333-061-0020(87).

- (5) To qualify for filtration endorsement certification, as prescribed by OAR 333-061-0220(4), individuals must:
- (a) Possess WT Level 2 certification;
 - (b) Have one year of operational decision-making experience at a water treatment plant utilizing conventional or direct filtration treatment; and
 - (c) Successfully pass a filtration endorsement examination.

Applications ~~For~~ for Certification Levels 1–4

- (1) An applicant for certification must submit documentation with any application demonstrating that their qualifying experience and education meets the minimum requirements ~~as~~ specified in OAR 333-061-0235.
- (2) To obtain initial certification or certification at a higher level by examination, individuals must:
 - (a) Submit complete, ~~original~~, signed copies of their application for the examination, and affidavit of experience;
 - (b) Meet the minimum qualifications for the certification sought as prescribed by OAR 333-061-0235;
 - (c) Pay the applicable examination fee as prescribed by OAR 333-061-0265 for the certification sought and examination applied for; and
 - (d) Successfully pass the examination for the certification sought.
- (3) To obtain certification by reciprocity, individuals must:
 - (a) Possess current, valid certification in another state or province which has a recognized certification program substantially equivalent to the requirements set forth in these rules;
 - (b) Submit a complete, ~~original~~, signed reciprocity application and an affidavit of experience;
 - (c) Pay the applicable reciprocity application fee as prescribed by OAR 333-061-0265 for each certificate desired; and
 - (d) Pay the exam fee as prescribed by OAR 333-061-0265, for any examination as prescribed by OAR 333-061-0250, if required by the Authority.
- (4) All applications for exams must be accompanied by the appropriate fee(s) and documentation, and must be submitted to the Authority 60 days prior to the desired examination date.
- (5) Operating experience earned at a water treatment plant or distribution system is considered qualifying experience for examinations up to one classification level higher than that of the water system where the applicant gained their experience.
- (6) The Authority may waive the education or experience requirements for Level 1 certification if the applicant meets the education requirements and possesses at least three months of operating experience, three months of water-related experience or 30 hours of relevant water system training (three CEUs or three college credits). Upon passing an examination, the authority will recognize the applicant as an operator in

training (OIT) for a period not to exceed 36 calendar months, unless a longer period is approved by the Authority in writing.
