Certified Abatement and Testing Professionals
Last Updated: Thursday, November 15, 2018

ATTENTION: If you are interested in hiring a certified lead-based paint inspector, risk assessor, or abatement contractor, please use the certified firm list to directly contact companies to see if they provide services for residential properties.

Certified Lead-Based Paint Disciplines

- A. Inspector: Conducts surface-by-surface investigations to determine the presence of lead-based paint in buildings before, during, and after lead-based paint work. Performs inspections, take samples, and prepares reports explaining the results of the investigations.
- B. Risk Assessor: Performs all the duties of an Inspector, and in addition, evaluates the types and severity of lead-based paint hazards before, during, and after lead-based paint work. Performs inspections and lead hazard screens, takes samples, interprets test results, and explains options for reducing lead-based paint hazards.
- C. Project Designer: Oversees and evaluates lead-based paint work to ensure that contract plans and specifications are followed. Prepares abatement project designs, occupant protection plans, and abatement reports.
- D. Supervisor: Implements and supervises lead-based paint abatement work practices.
- E. Abatement Worker: Performs lead-based paint abatement work under the direction of a lead-based paint Supervisor.

Discipline: Inspector

NOTE: Risk Assessors can perform Inspector duties

The Lead-Based Program provides a List of Lead-Paint Professionals and Firms as a public service for those seeking a professional individual to perform lead-based activities. OAR 333-069 requires every firm whose employees conduct lead-based paint activities to be certified by the State of Oregon as a Lead-Based Paint Firm. State Construction Contractor's Board also requires a Lead Abatement Business Endorsement. Lead abatement certified firms agree to only employ certified employees of appropriate discipline to conduct lead-based paint activities OAR 333-069-0005 through OAR 333-069-0090. State of Oregon does not favor one firm over another and any references herein to any organizations, specific commercial products, process, or service by trade name, trademark, manufacturer, or otherwise, do not necessarily constitute or imply its endorsement or recommendation.

Certified Lead-Based Paint Disciplines

A. Inspector: Conducts surface-by-surface investigations to determine the presence of lead-based paint in buildings before, during, and after lead-based paint work. Performs inspections, take samples, and prepares reports explaining the results of the investigations.

B. Risk Assessor: Performs all the duties of an Inspector, and in addition, evaluates the types and severity of lead-based paint hazards before, during, and after lead-based paint work. Performs inspections and lead hazard screens, takes samples, interprets test results, and explains options for reducing lead-based paint hazards.

C. Project Designer: Oversees and evaluates lead-based paint work to ensure that contract plans and specifications are followed. Prepares abatement project designs, occupant protection plans, and abatement reports.

D. Supervisor: Implements and supervises lead-based paint abatement work practices.

E. Abatement Worker: Performs lead-based paint abatement work under the direction of a lead-based paint Supervisor.
