

Environmental Public Health Division
Lead-Based Paint Program
Certified Abatement and Testing Firms

Last Updated: Friday, March 24, 2023

The Lead-Based Paint Program (LBPP) provides this list as a public service to be used by persons seeking a professional abatement firm to perform lead-based paint activities in and around your home. OAR 333-069 (Certification of Individuals and Firms Engaged in Lead-Based Paint Activities) requires any firm whose employees conduct lead-based paint activities to be certified by the Oregon Health Authority as a Lead-Based Paint Activities Firm. The Construction Contractor’s Board (CCB) also requires a Lead Inspection/Abatement Business Contractors License. Certified lead abatement and testing firms agree to only employ certified employees of the appropriate discipline to conduct lead-based paint activities and to follow the lead-based paint activities as prescribed in OAR 333-069 paragraphs 0100 through 0120. The State of Oregon does not favor one firm over another and any references herein to any organizations, specific commercial products, process, or service by trade name, trademark, manufacturer, or otherwise, do not necessarily constitute or imply its endorsement or recommendation.
