The Lead Based Program provides this List of Lead Abatement Professionals and Firms as a public service for those seeking a professional abatement firm to perform lead-based activities for home. OAR 333-069, Certification of Individuals and Firms Engaged in Lead-Based Paint Activities, requires every firm whose employees conduct lead-based paint activities to be certified by the State of Oregon as a Lead-Based Firm. State Construction Contractor's Board also requires a Lead Abatement Business Endorsement. Certified lead-paint firms agree to only employ certified employees of appropriate discipline to conduct lead-based paint activities and to follow the lead based paint activities as prescribed in OAR 333-069-0005 through OAR 333-069-0090. State of Oregon does not favor one firm over another and any references herein to any organizations, specific commercial products, process, or service by trade name, trademark, manufacturer, or otherwise, do not necessarily constitute or imply its endorsement or recommendation.
