

OHA's Selection Hierarchy for Toxic-Free Cosmetics PQLs (OAR 333-016-4025 & -4075)

OHA uses the following tiers in descending order to prioritize PQLs for chemicals/classes of chemicals for the above OARs:

- 1) PQLs from an Oregon agency;
- 2) PQLs from an agency in another state;
- 3) The maximum "level of quantification" LOQ from a list of LOQs from peer-reviewed publications.

	Practical Quantification Limit (in parts per million)	Source
Methylene glycol (463-57-0)	TBD	TBD
Triclosan (3380-34-5)	0.0001 ppm	Oregon Dept. of Environmental Quality
m-Phenylenediamine and its salts (9108-45-2)	100 ppm	New York State Dept. of Environmental Conservation
m-Phenylenediamine and its salts (9108-45-2)	100 ppm	New York State Dept. of Environmental Conservation
