INFORMATIONAL BULLETIN 2012-02

To: X-Ray Registrants with Therapy Units

From: David M. Howe, Section Manager 
Radiation Protection Services (RPS)

RE: **RPS Intent to Inspect Therapy Registrant Facilities.**

In 2008, the State of Oregon, Radiation Protection Services (RPS) began inspecting registrant facilities that use Medical Accelerators / Therapeutic X-Ray machines to ensure they were compliant with applicable Oregon Administrative Rules (OAR 333-123). Due to staffing issues, these inspections were suspended. However, in March 2012, RPS intends to re-initiate these inspections, beginning with registrant facilities that were not inspected.

RPS inspectors will contact the above facilities to arrange a mutually agreed upon date and time for an inspection. Prior to the inspection, RPS will provide an inspection checklist so registrants can be properly prepared for the inspection.

For further questions contact:

Catherine Hess, Radiation Health Physicist
State of Oregon Radiation Protection Services
