

## Radiation Protection Services Rules Advisory Committee (RAC) Meeting Notification

**Date:** March 23, 2026

**Facilitator:** Todd Carpenter, 971-673-0500, [Todd.s.carpenter@oha.oregon.gov](mailto:Todd.s.carpenter@oha.oregon.gov)

### Radiation Protections Services (RPS) has scheduled the following RAC meeting:

- **Program:** Notice of Proposed Rulemaking
- **Meeting description:** Discussion regarding amended Oregon Administrative Rules (OAR) Chapter 333, Division 102, 106, 116, and 119.
- **Meeting date and time:** April 13, 2026, 09:00 a.m. – 10:00 a.m.
- **Meeting location:** Microsoft Teams Meeting
- **Join information (for mobile or PC):**  
<https://teams.microsoft.com/meet/24156247679430?p=DfclkvHPv9YH2YQ9t> Meeting ID: 241 562 476 794 30 Passcode: pz7fd3JC
- **Call-in number and participant code:** 971-277-2343; phone conference ID: 487 376 724#
- **Seeking RAC members?** Yes

At the RAC, members will provide input that will help us develop the Notice of Proposed Rulemaking and help us better understand the fiscal impact of the proposed rule changes.

Please share this information with others who may be interested in providing input about the proposed rule amendments.

## Proposed rule changes for the Rules Advisory Committee to review.

To view the current rules, [visit the Radiation Protection Services Administrative Rules website:](https://www.oregon.gov/oha/PH/HEALTHYENVIRONMENTS/RADIATIONPROTECTION/Pages/rules.aspx)

<https://www.oregon.gov/oha/PH/HEALTHYENVIRONMENTS/RADIATIONPROTECTION/Pages/rules.aspx>

Rule(s)	Description of proposed changes
333-102-0285	Being amended by correcting a rule reference number to Nuclear Regulatory Commission's regulation from 21 CFR 207.20 to 21 CFR 207.17
333-106-0005	Being amended by updating the definition of "supervision" to include having responsibility to direct radiation work being performed, in addition to routinely reviewing and monitoring work being performed.
333-106-0205	Is being amended by requiring a non-radiologist practitioner to receive an Oregon Health Authority approved fluoroscopy training course to operate a fluoroscopy machine or when supervising the fluoroscopy operator. The amended rule will also allow a Doctor of Veterinary Medicine or certified veterinary technician licensed by the Oregon Veterinary Medical Examination Board to operate a fluoroscopy machine after successfully completing an approved Oregon Health Authority fluoroscopy course and the manufacturer's applications training.
333-106-0368	Is being amended by requiring medical physicists to be qualified for providing computed tomography (CT) X-ray system surveys and consultation service by completing 200 hours of documented experience in a clinical CT environment within a two-year period. Current rule requires the individual to complete three years of documented experience. The proposed rule amendment will allow for less restrictive requirements for a medical physicist to be eligible to provide CT services.
333-106-0370	Is being amended by allowing a Doctor of Veterinary Medicine or a certified veterinarian technician to operate a computed tomography (CT) X-ray system who is licensed with the Oregon Veterinary Medical Examining Board. The registrant must successfully complete an Oregon Health Authority approved CT course and manufacturer's application training. This amended rule is proposed due to the volume of rule exemptions received from the veterinary industry and to instead impose certain standards to allow for operation without obtaining an exemption.

333-116-1000	Is being amended by adding rule language outlying the reporting requirements of medical events resulting from patient intervention resulting in unintended permanent organ damage. Rule language is being inserted to the rule to be compatible with the Nuclear Regulatory Commission's 10 CFR Part 3045.
333-119-0010	Is being amended by removing subsections (a) through (k) from the tanning operator definition. The rule is now amended to demonstrate that the operator must meet requirements in OAR 333-119-0080 which is being proposed to outline the operator training requirements. Current rule language defines a tanning operator but does not outline the training requirements to become an operator.
333-119-0080	Is being amended to add specific training requirements that the vendor must address in their training curriculums for courses to be approved by the Oregon Health Authority. Content from the definition of operator (OAR 333-119-0010) was moved to this rule to outline the training requirements that the vendor must provide to the participant.
333-119-0090	Is being amended to make a rule reference number correction from OAR 333-119-0100(14)(b) to 333-119-0100(12).
333-119-0100	Is being amended to ensure that an electrical supply system installation or repair to a tanning device is performed by a State of Oregon licensed electrician.

## Rules Advisory Committee contact information

If these proposed amendments are likely to affect you, and RPS is seeking RAC members, you can request to join us as a RAC member. To do this, contact the person listed below.

- **Contact name:** Patricia Thompson
- **Phone:** (503) 509-2622
- **Email:** [Patricia.A.Thompson@oha.oregon.gov](mailto:Patricia.A.Thompson@oha.oregon.gov)

If RPS is **not** seeking RAC members, or you are not chosen to participate as a RAC member, you are welcome to observe the RAC and email your input following the RAC meeting.

Everyone has a right to know about and use OHA programs and services. OHA provides free help. Some examples of the free help OHA can provide:

- Sign language and spoken language interpreters
- Written materials in other languages
- Braille
- Large print
- Audio and other formats

If you need help or have questions, please contact Patricia Thompson at [Patricia.A.Thompson@oha.oregon.gov](mailto:Patricia.A.Thompson@oha.oregon.gov) or (503) 509-2622 at least two business days before the meeting.

Thank you in advance for your participation and continued interest.

## About Rules Advisory Committees

OHA holds Rules Advisory Committee meetings in accordance with [Oregon Revised Statute 183.333](#) (Policy statement; public involvement in development of policy and drafting of rules).

The RAC will hold at least one meeting to discuss the proposed rule amendments, the fiscal impact statement, and summary for the Notice of Proposed Rulemaking that RPS will file for these changes.

## Request to increase diversity and equity in membership for Rules Advisory Committee (RAC)

The Oregon Health Authority (OHA) goal is to create more equitable Oregon Administrative Rules (OARs). Organizations can help reach this goal by choosing someone from a priority population to represent their organization.

OAR 950-020-0010(7) defines “priority populations” as:

- Communities of color;
- Tribal communities including the nine federally recognized tribes of Oregon and other American Indians and Alaska Natives people;
- Immigrants;
- Refugees;

- Migrant and seasonal farmworkers;
- Low-income individuals and families;
- Persons with disabilities; and
- Individuals who identify as lesbian, gay, bisexual, transgender, or queer, or who question their sexual or gender identity.

OHA's Health Equity Definition includes "communities historically and currently disadvantaged by their race, ethnicity, language, disability, gender, gender identity, sexual orientation, social class, intersections among these communities or identities, or other socially determined circumstances."
