

# Oregon

## Sport-caught Fish

Follow these cooking and cleaning tips to reduce your exposure to PCBs\*:

- **Throw away the skin, fat and organs. PCBs collect in the fat of the fish.**
- **Bake or broil the fish so fats can drain off.**

**\*Mercury cannot be removed through cooking and cleaning.**

## Eat Fish.

Be Smart. Choose Wisely.

**Fish and seafood are good for your heart and brain. It's low in fat, high in protein, and rich in nutrients and omega-3s.**

This guide will help you gain these health benefits while protecting you from contaminants found in fish.

## FISH AND SEAFOOD GUIDE

# Looking for the **safest** catch?

**Are you pregnant, planning to become pregnant, nursing or feeding young children, or concerned about toxics in fish?**

Use this guide to help you make healthy choices for you and your family.

FOLD HERE

**SAFE TO EAT  
2-3 MEALS  
PER WEEK**

**SAFE TO EAT  
1 MEAL  
PER WEEK**

**AVOID OR  
EAT RARELY  
DUE TO MERCURY**

**Do you fish  
in Oregon?**

Call 1-877-290-6767 to see if your favorite fishing spot has an advisory. There are local advisories throughout Oregon due to mercury and PCBs. Follow the advice for fish caught in local waters and review the cooking and cleaning tips found on the back of this card.

**Mercury and PCBs are long lasting contaminants that accumulate in fish. In general, younger, smaller fish have less contamination.**

Check for local fish advisories at:  
**[www.healthoregon.org/fishadv](http://www.healthoregon.org/fishadv)**  
or call:  
**1-877-290-6767**  
or see the  
**Oregon Sport Fishing Regulations**

**Women who are or may become  
PREGNANT, NURSING MOTHERS,  
and CHILDREN should NOT eat:**
