

The 2006 Salem-Keizer bus barn fire destroyed seven buses that were housed underneath a canopy on the lot. They were bus numbers 130, 131, 137, 138, 139, 140, 141.

Several other buses were also under the canopy at the time of the fire, and those included bus numbers 10 through 31, 39 through 43, 127 through 129, and 142 through 150. Some of them were heavily damaged, and others were smoke damaged. All of these buses were repaired if necessary, cleaned and put back into service.

The buses that were not under the canopy during the fire, but were on the lot at the time of the fire, include bus numbers 44 through 82, 117 through 126. These buses were not cleaned.
