

**Putting Radon on the Map**  
Daniel Morris, MS, PhD  
Environmental Public Health Tracking Program

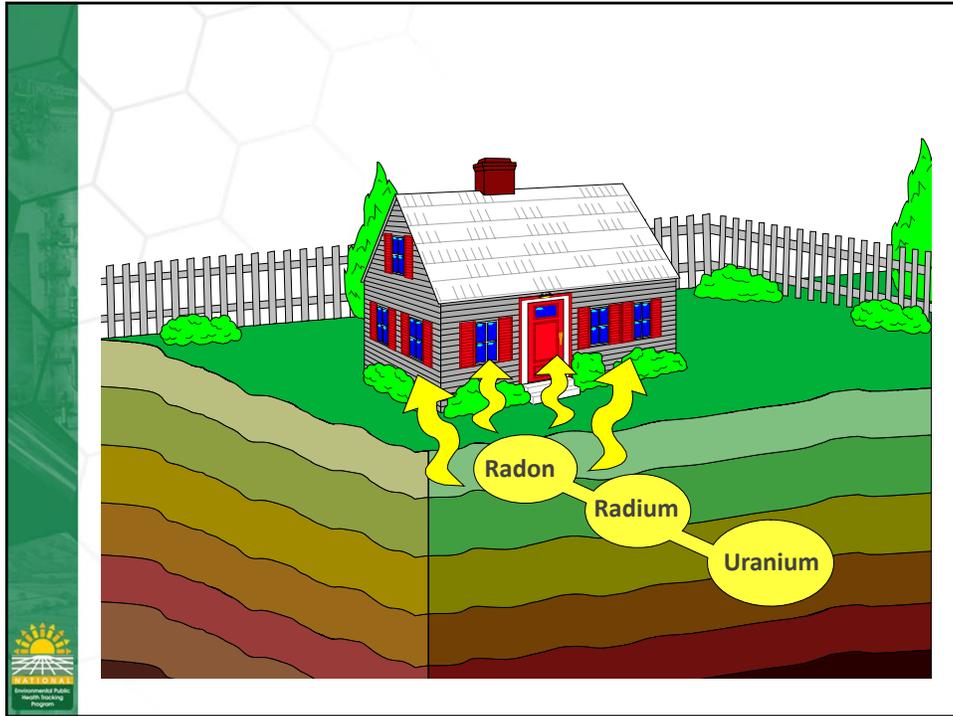

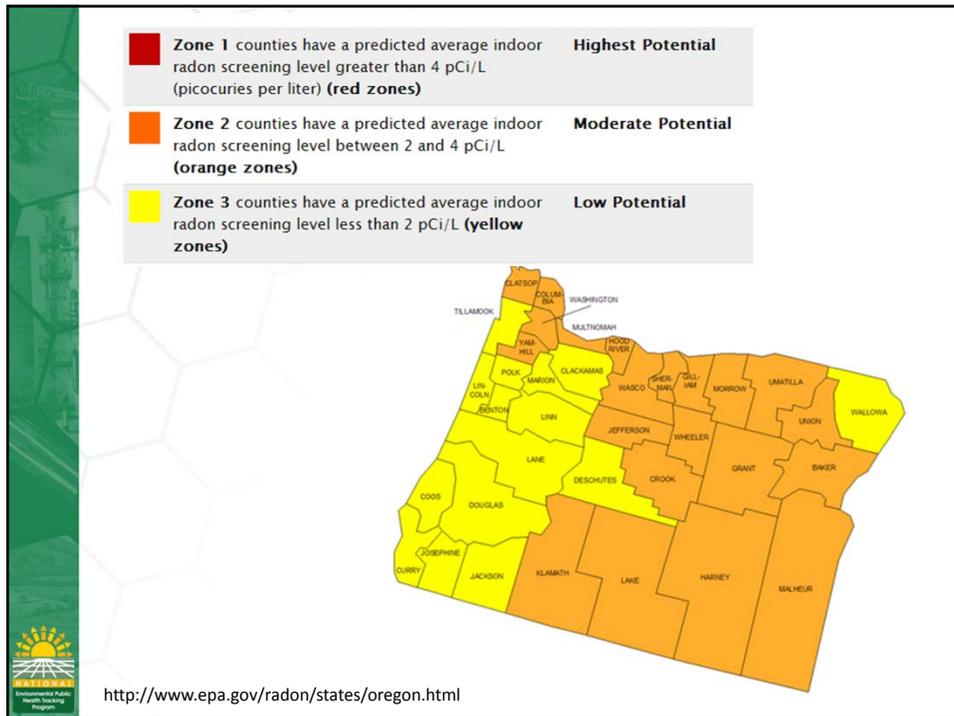

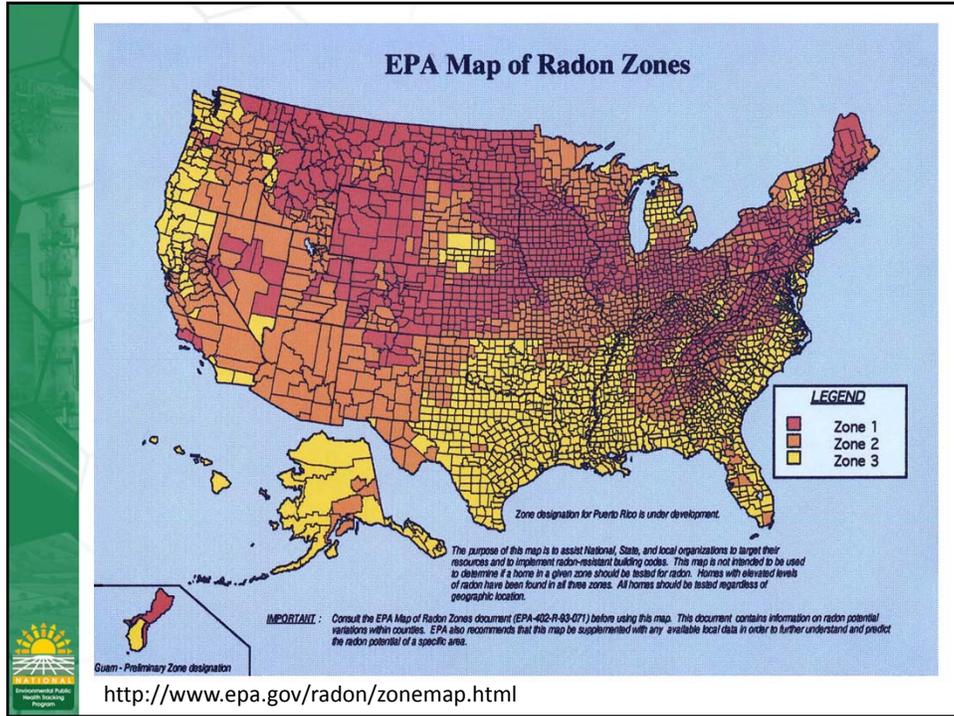

## Health risks from radon

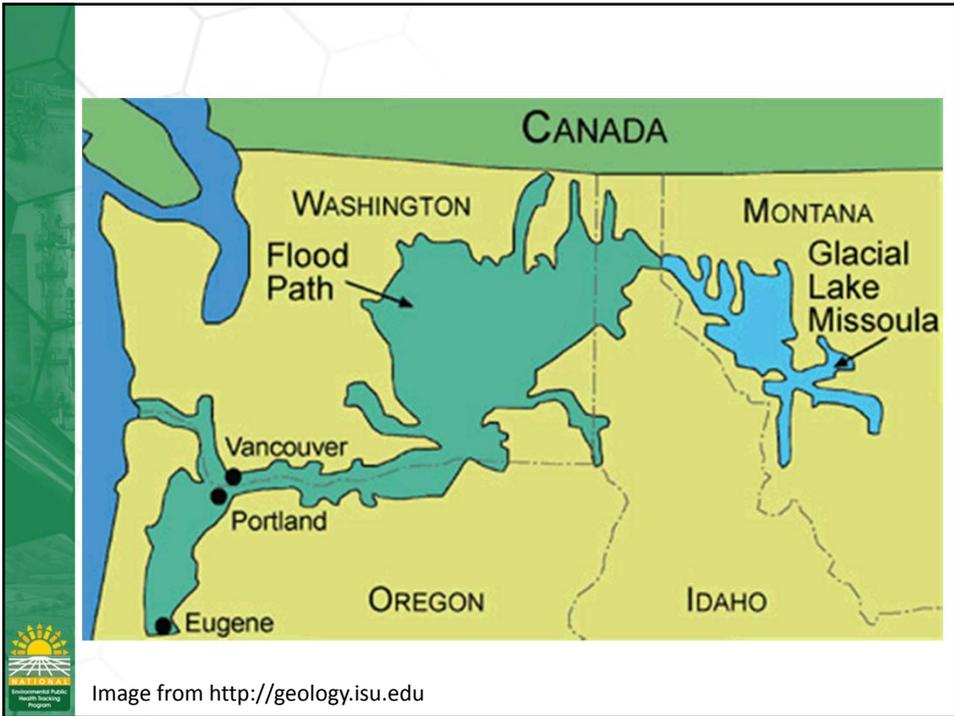

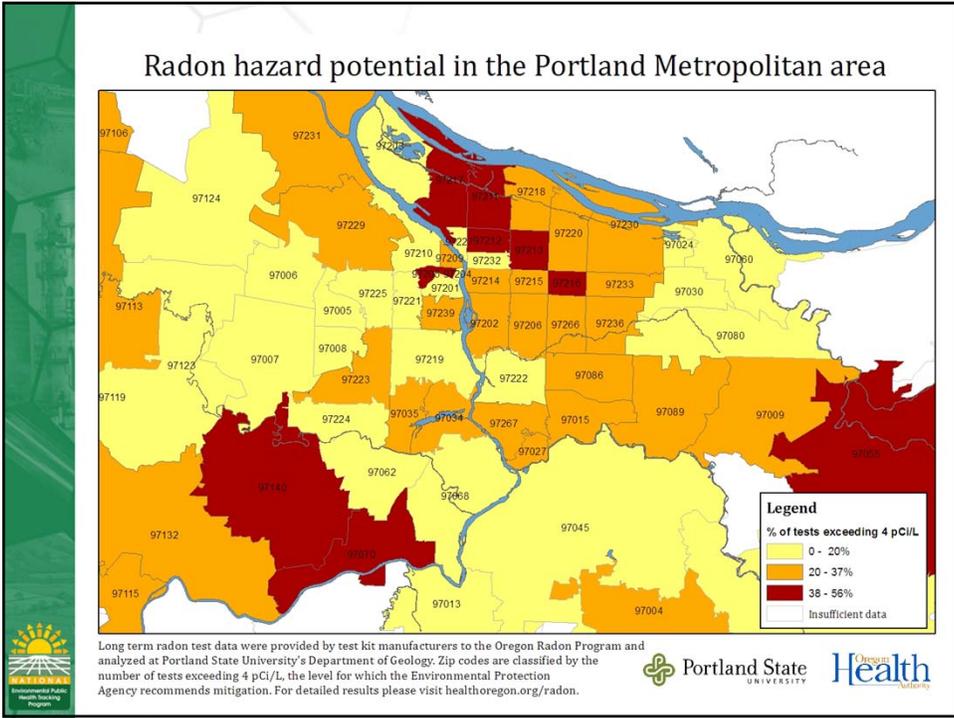

- Leading environmental cause of cancer mortality
- Second-leading cause of lung cancer, after smoking

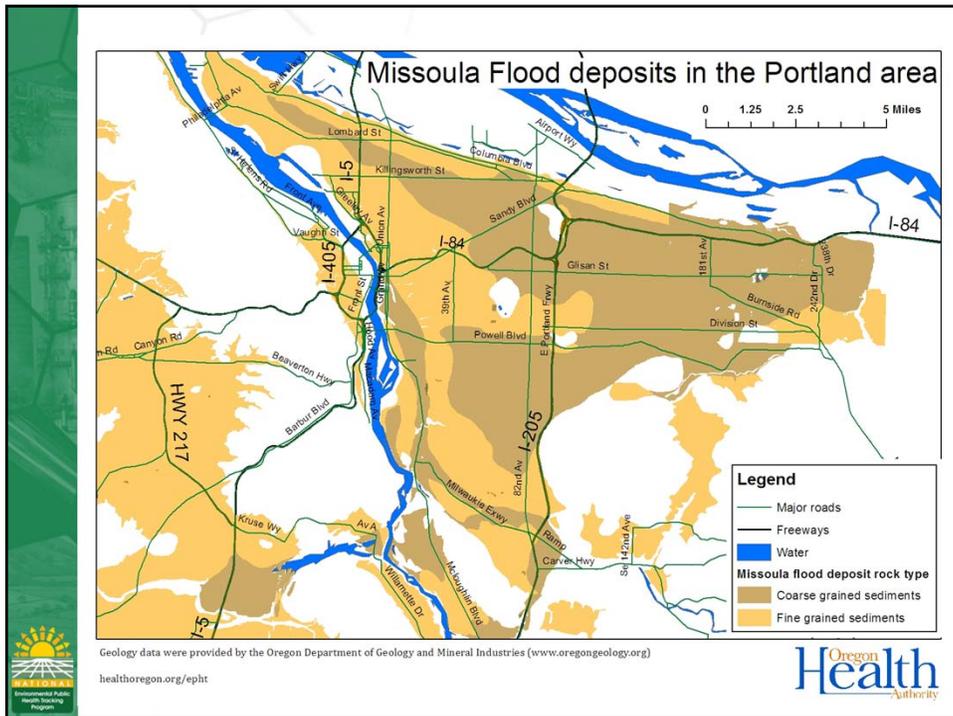

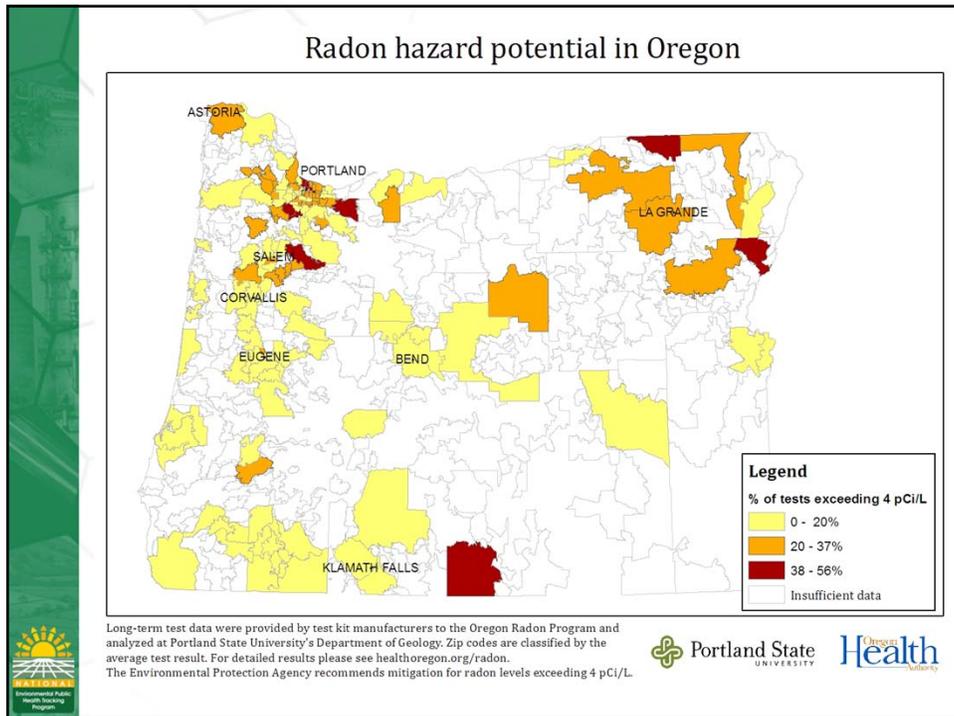

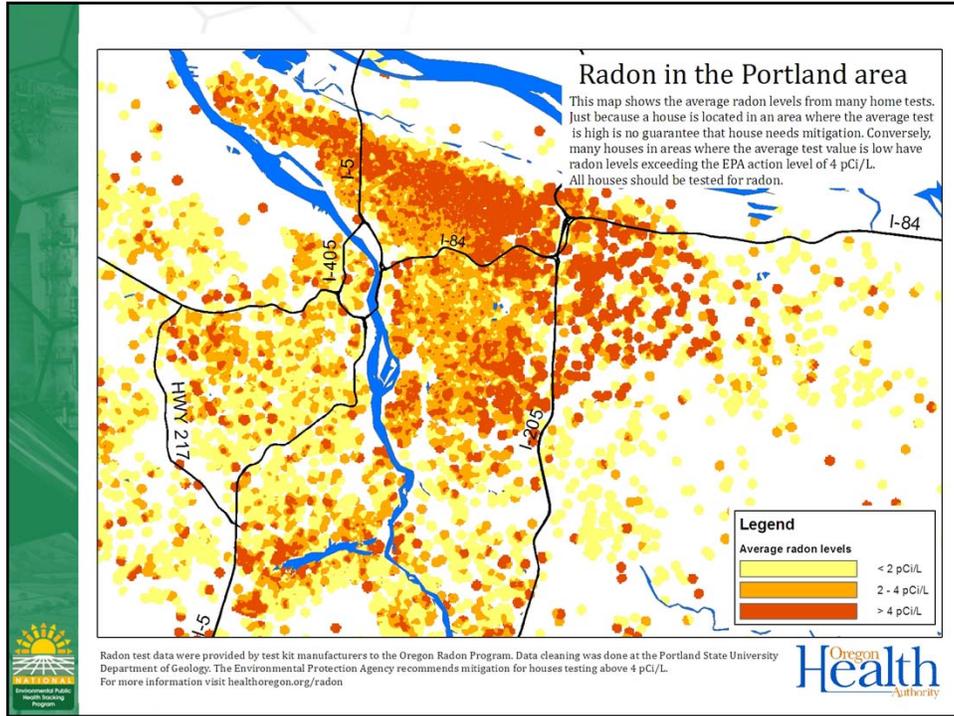

<http://public.health.oregon.gov/HealthyEnvironments/RadiationProtection/RadonGas/Pages/healthrisks.aspx#effects>

## Conclusions & next steps

- Great return for a modest investment
- Can replicate in other states
- Assemble state data for a national study
