County Codes Report

The County Codes Report shows the county codes that have been recorded on visits within the date range. The "County Code" field is available on every visit in ORCHIDS, and users can save none, one, or multiple county codes on a single visit. Local program staff assigns county codes (01 through 20) to represent specific pieces of data for tracking purposes. Examples of data that local county agencies choose to track with county codes include specific interventions, special funding sources, whether DMAP denied or reimbursed the visit, and postpartum outcomes. Each agency has the option of defining its own set of county codes.

Most of this report consists of a table, where each row in the table represents a county code. The number of visits with each county code recorded is displayed. The percentage of total visits with each county code recorded is also displayed. At the top of the report the number of clients and visits are totaled.

Only information about clients with visits during the date range will appear on this report.

The following two pages show an example of a County Codes Report. The report displays first as it appears on the screen. A second version follows that contains descriptions of what each field on the report means.

MCM/MOP County Codes Report
Agency: Deschutes CHD
Visits From: 1/14/1930 To: 12/22/1930

Total Clients: **6**
Total Visits: **42**

MCM

    Client Count: **4**
    Visit Count: **29**

MOP

    Client Count: **3**
    Visit Count: **13**

MCM/MOP County Codes Report

Agency: Deschutes CHD
Visits From: 1/14/1930 To: 12/22/1930

Total Clients: **6**
Total Visits: **42**

Total Clients: The deduplicated number of MCM and MOP clients that received visits during the date range. One client received both MCM and MOP visits, but is only counted once.
Total Visits: The number of visits that MCM and MOP clients received during the date range.

MCM
Client Count: **4**
Visit Count: **29**

Client Count: The number of MCM clients that received visits during the date range.
Visit Count: The number of visits that the MCM clients received during the date range.

MOP
Client Count: **3**
Visit Count: **13**

Client Count: The number of MOP clients that received visits during the date range.
Visit Count: The number of visits that the MOP clients received during the date range.

	MCM		MOP		MCM & MOP	
	Visit Count	Percent of Visits	Visit Count	Percent of Visits	Visit Count	Percent of Visits
01	0	0%	4	31%	4	10%
02	1	3%	5	38%	6	14%
03	1	3%	3	23%	4	10%
04	7	24%	0	0%	7	17%
05	5	17%	0	0%	5	12%
06	1	3%	0	0%	1	2%
No County Code	14	48%	1	8%	15	36%

Visit Count:
There were 14 MCM visits with no county codes recorded on them.

Percent of Visits:
Of the total 29 MCM visits, 14 visits had no county codes recorded on them.
14 ÷ 29 = 48%

Visit Count:
There were 5 MOP visits with County Code 02 recorded on them.

Percent of Visits:
Of the total 13 MOP visits, 5 visits had County Code 02 recorded on them.
5 ÷ 13 = 38%

Numbers and percents represent MCM and MOP visits combined.

Report reflects all data entry completed as of the previous day.
