

PE 46 Webinar

May 2021

REPRODUCTIVE HEALTH PROGRAM
Adolescent, Genetics, and Reproductive Health

Agenda

- Welcome/Introductions
- Icebreaker
- FY 21 Annual Report
- FY 22 PE Changes
- FY 22 Annual Plan
- Support and Assistance
- What's Next?

FY 21 Annual Report

REPRODUCTIVE HEALTH PROGRAM
Adolescent, Genetics, and Reproductive Health

FY21 Annual Report

Before completing your FY21 Annual Report

- Review FY21 Annual Report Instructions
- Review your FY21 Annual Plan
- Gather supporting documentation that support completion of activities in FY21. For example,
 - Meeting agendas or minutes
 - Attendee lists
 - Survey/focus group/assessment results
 - Evaluation plan
 - Materials developed

PE 46: FY21 Final Report

Using your FY21 PE 46 Local Program Plan, complete the following form. On the form, select which program components and objectives you chose for FY21 and identify whether the objective was met and the progress/challenges with meeting the objective.

Please note: You will NOT be able to save this form and come back to it later. SmartSheet does not have this feature. Please have all the information ready before completing the form.

REPRODUCTIVE HEALTH PROGRAM
Adolescent, Genetics, and Reproductive Health

Community Partnerships

This Program Element uses a systems approach to ensure that LPHAs lead efforts to develop a community-based approach to ensuring that equitable access to reproductive health services is available – leveraging partnerships with community organizations and capitalizing upon the presence of other service providers to assist in meeting the need.

Partnerships with other health care providers and/or RHCare agencies is highly encouraged. In addition, consider developing partnerships outside the health care sector. This may include local governmental, private, or non-profit agencies focused on culture, education, criminal justice, housing, social justice, sexual/domestic violence, workforce development, and/or parenting, to name a few. Consider other local task forces or advisory groups focused on improving quality of life/health disparities/inequities for the populations you are trying to serve. Think about inviting and engaging community members, the populations you are trying to serve, to be partners.

Identify current partners you collaborate with as part of PE 46. *

Identify potential new partners you may collaborate with over the coming year. *

Centering Health Equity

PE 46's overarching goal is to ensure regional access to comprehensive, culturally responsive and high-quality, evidence-based reproductive health services with a focus on serving individuals with limited resources and experiencing health disparities.

Given this goal and your local context/data, are there specific populations you will focus on in PE 46 to reduce barriers and increase access to reproductive health services? If so, please list. If not, how will you go about identifying such populations? *

Which of the following Program Components have you chosen for FY22? *

You must identify at least one program component and one objective within that component for FY22. Consider where you left off in FY20 and FY21 with the goal of moving to the next component each year.

Component 1: Develop and maintain strategic partnerships with shared accountability to drive a ... x

Program Component 1

Develop and maintain strategic partnerships with shared accountability to drive a collective impact to support public health goals related to RH.

- Obj 1A: Convene on-going partnership meetings focused on assuring access to RH services, minimizing gaps and barriers, and/or improving the quality of reproductive health services within your community.**
