

CVR Data and Billing Webinars

The RH Program is hosting webinars on CVR data and billing. We will review the entire CVR, RHAF reimbursement rates, allowable primary diagnosis codes, the monthly Ahlers billing register and CVR error reports, and where to find resources on our website. Webinar recordings and slides will be posted to our website for those unable to attend.

Due to different requirements for RHCare and CCare clinics, we are offering specific webinars for each clinic type. All times are in Pacific time.

CVR Data and Billing Webinar for RHCare clinics

- Option 1: Wednesday, Apr 16, 9:00 -10:15. Click [HERE](#)[↗] to register
- Option 2: Thursday, Apr 24 2:00 -3:15. Click [HERE](#)[↗] to register

CVR Data and Billing Webinar for CCare clinics

- Wednesday, Apr 16 1:00 -2:15. Click [HERE](#)[↗] to register

Reminder about Coverage for Tubal Ligations

Recently, we've received a number of questions about whether the RH Program, through RHAF, covers tubal ligations. RHAF does not cover tubal ligations. If a RHAF enrollee is interested in getting a tubal, we encourage you to support them in enrolling in OHP, if eligible. OHP covers tubals for members regardless of citizenship or immigration status. We know that not all RHAF enrollees are eligible for OHP (e.g., income is too high for OHP) and that this represents a gap in access. For these clients, it might be worth researching whether any hospitals in your community offer charity care or some other form of financial assistance for people seeking tubals. If you have any questions, please don't hesitate to reach out to us at rh.program@oha.oregon.gov.

New! Newsletter Glossary

The last page of the newsletter is now a glossary for acronyms and terms that are commonly found in newsletter articles. Take a look!

Community Sanctuary Promise Toolkit

The CRU (Civil Rights Unit) Sanctuary Promise Community Toolkit is a free, online resource for those seeking to understand Oregon's sanctuary laws and help ensure that our communities are safe for all. Everyone has the right to live, work, play, and learn safely in Oregon. This toolkit covers the essential information needed to understand, report, and combat violations of Oregon's Sanctuary Promise Laws.

Trainings

Webinar: Understanding Open Adoption (*Thursday, March 27 12:00-1:00*)

This webinar, hosted by Open Adoption & Family Services, is designed to help service providers support pregnant individuals and couples considering adoption. It will cover:

- Why the era of closed adoption is over and how open adoption is now the norm.
- What a child-centered open adoption looks like.
- How openness serves the needs of all adoption constellation members throughout their lives.
- Best practices in adoption.

Webinar: Survivor-Centered Support – Improving Response to IPV in SRS Settings *(Wednesday, April 16 11:00-12:00)*

Join the CTC-SRH for a webinar on evidence-based strategies to address and respond to intimate partner violence (IPV) and reproductive coercion in sexual and reproductive health (SRH) clinical settings. Learn about the CUES framework (Confidentiality, Universal Education and Empowerment, and Support), which offers healing-centered support without requiring patient disclosure. Participants will see CUES demonstrated, practice sample scripts, and learn how to integrate these strategies into their practice.

Resources

Affirm, Share, Ask Cycles for Person-Centered Communication and Counseling Video Series

This video series, from RHTNC, demonstrates the Affirm, Share, Ask Cycles for Person-Centered Communication and Counseling. These videos, which present brief provider-client interactions, are intended for sexual and reproductive health staff who interface with clients in a clinical setting (e.g., clinical services providers, nurses, health educators).

Vasectomy Services in Title X (RHCare) Settings: A Toolkit for Providers

Vasectomy, a safe and cost-effective contraception method, is a reliable choice for clients seeking permanent contraception. High-quality vasectomy services require the proper infrastructure, supplies, equipment, trained staff, and robust administrative and financial systems. This toolkit, from CTC-SRH, includes a host of job aids, tools, and resources to support providing safe and affordable vasectomy services in your health center.
