## Opportunity to Present at the Oregon HPV Summit

The 2019 HPV Summit is coming up on June 11, if you or your community partners are interested now is the time to submit a proposal. Please share with your partners, and consider applying and presenting yourself! The request for presentations is *attached*. The deadline for submissions is April 10.

## Health Care Interpreter Training (HCI)

Earlier this month, the OHA Office of Equity and Inclusion (OEI) in partnership with the Reproductive Health Program hosted a free Certified Health Care Interpreter training. 21 RH Clinical staff representing Baker, Deschutes, Harney, Jefferson, Linn, Morrow, Umatilla counties as well as Planned Parenhoods, took advantage of this opportunity and are now officially Certified Health Care Interpreters!

We thank OEI for the partnership in addition to the 21 individuals helping to improve access to reproductive health services in the State of Oregon!

See below for resources from the [Office of Equity and Inclusion](#)<sup>7</sup> about Healthcare Interpreters:

## Trainings & Education

### **Webinar: You are the Key to Cancer Prevention**

***(Wednesday, March 27, 12:00-1:00)***

This free upcoming webinar is for physicians, RN, NPs, and PAs, medical assistants, pharmacy techs, dentists, dietitians, and administrative staff and has been approved for CME/CE credit. Its main objectives are to define the importance of HPV vaccination for cancer prevention, explain the rationale for vaccinating youth at age 11 or 12, list recommendations for administering the HPV vaccine to both boys and girls, provide useful compelling info about HPV vaccine to parents to aid in the decision making to vaccinate, and locate recourses relevant to current immunization practices. See the *attached* flyer for more information.

**[Register here](#)**<sup>↗</sup>

### **Webinar: Data Privacy, Immigration, and Public Charge**

Over the past year, the RH Program has received questions and heard concerns about immigration and data privacy due to the expansion of reproductive health coverage to include more immigrant populations, and recent proposed changes to the federal public charge rule. To address these questions and concerns, the RH Program will host a webinar to:

- describe how information collected on the RH Program Enrollment form is used and/or shared with others;
- provide key talking points for clinic staff working with immigrant clients; and
- answer questions related to data privacy and public charge.

This webinar is intended primarily for clinic staff who assist clients in enrolling in RH Program coverage. Please see below for webinar dates/times and how to register. The same content will be offered at both webinars.

**Monday, April 15 from 11:30 - 12:30**<sup>↗</sup>

**Thursday, April 18 from 8:30 - 9:30**<sup>↗</sup>

## **Webinar: Intimate Partner Violence and Reproductive Coercion Impacts on Access and Use**

***(Thursday, May 2, 8:00-9:00)***

Intimate Partner Violence (IPV) also known as domestic violence is common. One in three Oregonian women will experience IPV in their lifetime compared to national average of 1 in 4, and women ages 18-34 experience the highest rates of violence. In this webinar we'll discuss the intersections of reproductive health and intimate partner violence, particularly as it relates to reproductive coercion; introduce an evidence-based screening and referral tool along with clinic practices that support patients experiencing abuse; and review community-based advocacy organizations as a resource and ally for your patients and clinics.

## Resources

### **Physicians for Reproductive Health**

This comprehensive, evidence-based curriculum is designed and updated in collaboration with a faculty of extensively trained adolescent medicine physicians with a shared goal of educating youth-serving professionals in best practices for adolescent reproductive and sexual health. The curriculum modules and standardized case videos are free to use, edit, and share. The faculty are also available for live and web-based presentations at grand rounds, conferences, and other medical education venues.
