Save the Date! Client Satisfaction Survey Happening in April

As many of you know, the RH Program does a Client Satisfaction Survey with a random sample of clinics every other year. We are gearing up for the 2020 Survey and are planning for a two-week survey administration period in mid-April. In 2018, we had one clinic from every agency participate, and we'd like to do the same this year. We will be reaching out to the selected clinics with more information in February. If you have any questions or concerns, please contact Rachel at

Rachel.S.Linz@dhsosha.state.or.us [?].

New RH Community Outreach, Education, and Enrollment Project

The Oregon Reproductive Health Program is excited to announce our RH Community Outreach, Education, and Enrollment Project.

We will be seeking proposals from up to 8 Community-based Organizations that are actively working in service to immigrant communities, communities of color, and populations experiencing inequities in health outcomes. This project presents an opportunity to decrease inequities in reproductive health outcomes by integrating increased cultural responsiveness into our program's work. The Project will build on the strength, reach, and skills of CBOs, and in turn support those CBOs with the expertise and high-quality services that our program and clinic network have to offer.

The Request for Proposals for these projects will be posted in the next few days! We will announce when it's posted and hope you will share it with your community partners!

Family Involvement Training

The Family Planning National Training Center now has a training video on encouraging family involvement. While the RH Program is no longer a Title X grantee, we feel there is value in encouraging adolescents to talk with a trusted adult/family member when making decisions around their health care. The six-minute video provides scenarios to assist providers in beginning this conversation. It is also available on our [Trainings webpage](#).
