Spending Your Expansion Grant Funds

You are applying for up to \$5,000 NSA funds for relocating or opening a new clinic. Yay!

So, what can you buy?

Your funds can be used to update a clinic by purchasing medical equipment such as scales and stadiometers, office décor, nutritional educational materials, or furniture such as a breastfeeding chair or exam tables. Funds can be used to create a trauma-informed environment for WIC participants and their families, but not for capital improvements. Purchasing guidelines now prohibit the purchase or delivery of computer equipment.

Don't know where to start? Which vendors can you source products from?

Great question! There are a variety of vendors who work with us and have outstanding customer service. They offer reasonable prices, organize delivery times, and arrange to move large products into the clinic. The State is not able to use Amazon as a vendor. There are no exceptions.

You may start looking for various products from the vendors listed below. This is not an exhaustive list but a jumping-off point. Feel free to look online to score just the right object for your clinic. Please remember to factor in the shipping costs for those extra-large items so you don't exceed the budget!

MarketLab

<https://www.marketlab.com/>

- Medical exam tables, diagnostic supplies, patient comfort
