

The Hygeia™ Pro

Everything you could want in a breast pump

The Hygeia Pro is our most innovative pump yet. It is stronger, more convenient and versatile than any pump we have offered. It is a hospital-strength breast pump that is cordless, allowing mom to pump anywhere. It maximizes comfort while being ultra lightweight, quiet and compact.

More Powerful

More powerful than a leading competitor with true hospital-strength. Stronger suction helps moms produce more milk, faster.

Cordless

The internal, rechargeable battery allows all moms to have a mobile pumping experience.

Maximum Comfort

More levels to choose from in both stimulation and expression mode.

Ultra Portable

Weighs less than a pound and fits in the palm of your hand. Comes with a convenient USB charging cord and wrist lanyard.

Hygeia Baby App

Mom will be set up for breastfeeding success with virtual IBCLC consults, breastfeeding tips, instructional videos, baby tracking and more.
