Linking CCO Incentive Metrics & WIC's Existing Practices

Thirteen of the 17 incentive metric performances set for Oregon's coordinated care organizations (CCOs) in 2019 demonstrate an opportunity for collaboration between Oregon WIC and CCOs to improve health outcomes. The Metrics and Scoring Committee have identified four metrics (in grey) as focus areas that have impact on early childhood health.

Selected 2019 CCO incentive metrics demonstrating an opportunity for collaboration with WIC	WIC incorporates into its practice
Assessments in 60 days for kids in DHS custody	
CAHPS composite: Access to care	
Childhood immunization status (WIC screens & refers)	★
Cigarette smoking prevalence	★
Controlling high blood pressure	
Dental sealants on for children	★
Depression screening and follow up	★
Developmental screening in first 36 months	★
Diabetes HbA1c Poor Control	
Effective contraceptive use (ages 18-50)	
Patient-Centered Primary Care Home enrollment	
Timeliness of postpartum care	★
Weight assessment and counseling in children and adolescents	★
