Retail vs. Institutional

Some nutritionals are packaged differently for stores-retail sales versus what is known as institutional sales (e.g. PediaSure, Boost, and Ensure). Containers sold in the stores in six containers per package do not allow for the maximum issuance (e.g. 113 containers vs. 108 containers). When the Medical documentation form requests the full issuance, ordering from the Formula Warehouse can fulfill this request. The product is the same, the packaging will look different.

Medical Formulas not provided by WIC

Oregon WIC does not provide medical formula in the following situations:

- Medical formula or nutritional provided by tube feeding (e.g. gastrostomy tube or nasogastric tube)
- Metabolic formulas for inborn errors of metabolism

Please contact your assigned Nutrition Consultant regarding the payment of these formulas by Medicaid.
