POLICY
Local WIC programs shall separate staff activities (duties) of determining participant income eligibility from risk determination.

PURPOSE
To ensure program integrity and prevent program abuse by assigning certification functions to more than one staff at the local level.

RELEVANT REGULATIONS
ASM 99-94—Separation of duties in WIC clinic operations
7 CFR 246.4(a)(26)—State plan: Conflicts of Interest
WIC Policy Memorandum #2016-5 – Separation of Duties at WIC Local Agencies

APPENDICES
N/A

DEFINITIONS
Food benefits: The individual foods a participant receives on WIC for a selected month. “Food Benefits” are specific amounts of WIC authorized foods or formulas or a fixed-dollar amount for participants to obtain WIC authorized fruits and vegetables.

eWIC card: Magnetic stripe card used to purchase WIC authorized foods or formulas from a WIC family’s Electronic Benefit Account (EBA). Each card has a 16-digit Primary Account Number (PAN).

Separation of Duties: A standard accountability/security practice to separate income eligibility determination from risk determination between more than one person when possible.

BACKGROUND
N/A
PROCEDURE

Separation of Duties

1.0 Local programs shall establish and maintain a standard system for separation of staff duties at the clinic level as a security feature against program abuse.

1.1. Assign income eligibility determination and risk determination duties to different staff members to avoid a single staff doing all functions of the certification process. Example: The staff person at the front desk determines the participant’s income eligibility, residency, and identity and sets up the Cardholder Account. The Competent Professional Authority (CPA) assesses risk, assigns the food package and issues the eWIC benefits.

1.2. Separation of duties is not required to issue benefits, including via the phone, if eligibility has already been completely determined using separation of duties, and if food benefits have been issued at least once during a participant’s current certification. See 511- Food Benefit Issuance.

Audit

2.0 Each local program will establish quality assurance standards and a regular monitoring system. This should include at a minimum:

2.1. The WIC coordinator or agency designee runs the TWIST Separation of Duties Audit report and completes the audit review every two weeks. If the WIC coordinator chooses to have a designee complete the monitoring, that person needs to be in a lead or supervisory role. Note: WIC staff cannot audit themselves, therefore, if the coordinator or designee shows up on the report, the coordinator must assign an appropriate designee to complete the audit.

2.2. For records where the income determination and risk determination, including food package assignment, was performed by the same staff person, review all certifications for non-breastfeeding infants (IN) and at least 20% of the remaining certifications on the report. The audit can consist of reviewing information such as the following:

- Recent appointments and dates of certification
- Medicaid (Oregon Health Plan) portal to validate adjunct income eligibility, identity and residency
- Height and weight taken on the date in question and measurements are within a reasonable range
- Medical documentation form on file and signed by a healthcare provider outside of WIC

2.3. If none of the above can be verified or if there are compliance issues (e.g., frequent replacement cards, dual participation, etc.), then contact the participant with a “customer service” call to confirm benefits were issued to that participant.

2.4. Write Yes or No in the “Valid Certification?” column on the report for each selected participant

2.5. Contact the State with any concerns about compliance or potential fraud.
2.6. In clinics with multiple WIC staff, but where only one staff person performs all eligibility and certification functions, the WIC coordinator must audit an additional 10% of those records every six months.

2.7. Retain copies of all reports for 3 years.

2.8. The state WIC program will review for compliance during the biennial WIC program review. See ♦215 - Local Program Monitoring and Review.

WIC staff who are also WIC participants

3.0 Local staff who are also WIC participants may not certify themselves. See ♦620 - Certification and Issuing Benefits to Relatives, Friends and Coworkers.

Certifying relatives, friends or coworkers

4.0 Refer to ♦620-Certification and Issuing Benefits to Relatives, Friends and Coworkers for guidelines on certification of relatives, friends or coworkers.

POLICY HISTORY

<table>
<thead>
<tr>
<th>Date</th>
<th>* Major Revision, Minor revision</th>
</tr>
</thead>
</table>

The date located at the top of the policy is the implementation date unless an “effective date” is noted on the policy. Policies will become compliance findings 6 months from the implementation date.

Release notes can be found in the corresponding document on the Policy and Procedure Manual page.

*Major Revisions: Significant content changes made to policy.

Minor Revisions: Minor edits, grammatical updates, clarifications, and/or formatting changes have occurred.

Date of Origin: Date policy was initially released
