

# TWIST Updates for 12/18/2017

## New with this TWIST release

### Fixed problems

1. You can now search for participants using the apostrophe in their last name.
2. You can now create a nutrition education class with an apostrophe in the title in the *Appointment Scheduler*.
3. The *Separation of Duties* report has been fixed to include participants who had transferred in from outside Oregon in the past. Please let us know if you see any unexpected results.
4. The *Participants with No Benefits* report can now be exported to Excel using “save as” in the file menu.
5. Fixed a problem with in-state transfers to prevent over-issuance of benefits.

### Breast pump related changes

1. Issuance of Hygeia breast pumps will now show on the *Family Summary Screen*.
2. The *Lactina Tracking* report has been changed to the *Multi-user Pump Tracking* report, and now shows both Lactina and Hygeia breast pumps.
3. When entering pumps into inventory, TWIST now limits the serial numbers according to the correct brand of pump.
