

ScreenWise Program Update: September 2017

1. **Program Changes Ahead:**

- a. ScreenWise has continued to work with Pilot Project Providers throughout the summer to improve program forms and update program policies to streamline and improve the program for our providers and your patients. Webinar opportunities for training on the new forms will be announced soon.
- b. In addition, to the Pilot Project changes, the program recently received our Notice of Awards from the Center for Disease Control and Prevention (CDC). As a result of new information, the program must make changes to meet funding limitations and expectations. The ScreenWise Program Manager will host a Webinar for all ScreenWise providers on Tuesday, September 19 from 12 – 1pm to share the information and program direction. Please note - if you are unable to attend or have specific questions after the Webinar, please contact Kristin directly at 971-673-0286.

2. **MDE clean up:** It is that time of the year. Twice a year we submit Minimum Data Elements (MDE) to CDC. As part of this data completeness review we will soon be sending out requests to complete screening and diagnosis information. Please be on the lookout for these requests in your inboxes this week. MDE requests can be fulfilled by entering information in the excel document or by submitting completed forms. **Please return requested MDE data by September 27th.**

3. **ScreenWise QA Q & A:** Following the roll out of the new changes and going into a new season, we would love to provide more opportunities for you as ScreenWise providers to speak with us and hear from each other about barriers, solutions, challenges, successes, and work arounds. These will be open conference call/webinar opportunities for all ScreenWise clinics and are open to any staff who have questions or want to hear from others. Please save the following dates and look for registration opportunities in later communications:

- a. **Wednesday, October 18th 12-1pm:** [Register HERE](#)
- b. **Wednesday, November 15th 12-1pm**
- c. **Wednesday, December 13th 12-1pm**
