

ScreenWise Program Update: May 2018

Important Announcements:

Change in services available to ScreenWise clients:

The grant from Centers for Disease Control and Prevention that currently funds cardiovascular laboratory services is coming to an end effective July 1, 2018. Therefore, as of July 1, 2018, the ScreenWise program will no longer be able to cover the following cardiovascular lab services:

Cardiovascular Services (Age 40+ only)				
CPT Code	Description	Modifier	Rate	End Note
36415	Routine venipuncture		\$ 2.10	29
80061	Lipid panel (max quantity of 2 every 11 months)		\$ 12.77	29
82947	Glucose; quantitative (max quantity of 2 every 11 months)		\$ 3.75	29
83036	Hemoglobin, glycated (A1C) (max quantity of 2 every 11 months)		\$ 9.25	29

Thank you to all our providers who have helped provide these and other heart screening services throughout the life of this grant! Your feedback about the services and our program has been instrumental in program planning and implementation efforts.

The current billing administrative rule requires that our agency receives claims within 120 days from the date of service, however we ask that you submit all remaining cardiovascular lab services claims as soon as possible. Please submit all laboratory claims by August 1, 2018 to allow for entry and processing time. In addition, please make any necessary clinical work flow and billing adjustments as we are not permitted to pay for laboratory services with a date of service on or after July 1, 2018.

If you have questions please contact our Quality Assurance Coordinator, Tessa Jaqua, at tessa.r.jaqua@dhsosha.state.or.us or 971-673-1277.

Program Eligibility Changes:

Please remember that we have changed eligibility criteria as of May 1, 2018. Please review our website for further information: www.healthoregon.org/screenwise

Client Service Charges Waiver:

Providers must have conversations about ScreenWise covered services and non-covered services that are provided during ScreenWise office visits. We have seen an increase in clients receiving bills for non-covered services who are unaware that ScreenWise did not cover those procedures or services. Clinics need to use either an internal document to record that this conversation has taken place or the [ScreenWise Out-Of-Pocket Waiver](#), so that patients and providers have documentation of cost responsibility.

Updates/Training:

- **Provider Reports:** We have completed our new provider report templates, to be sent out in May.
