

ScreenWise Program Update: December 2018

Dear ScreenWise Providers,

As we have been messaging for the last few months, we will be transitioning to new forms on January 1st, 2019. These changes are the result of updated data requirements from the CDC and needed improvements in data quality for programmatic efficacy.

Effective January 1st, 2019, all ScreenWise **enrolling** providers will need to use the new forms for all patients, whether they are being newly enrolled or re-enrolled. The new forms will be available on our website, www.healthoregon.org/screenwise, on December 24th in preparation for the January 1st effective date.

For patients that were enrolled prior to January 1st, 2019, providers will need to use the old/existing forms to update patient results and abnormal follow-up data until April 1st, 2019.

OLD Form cut off dates / NEW form implementation:

- Monday, December 31st: last day to enroll using the old Intake Packet forms
- Tuesday, January 1st: new forms go LIVE, all new and renewing enrollments must be completed using new forms on and after January 1, 2019
- Monday, April 1st: all result and abnormal follow-up forms need to be submitted on new forms regardless of enrollment date,

ScreenWise will be conducting seven identical training webinars on the new forms throughout the month of December. Please register for webinars at: <https://register.gotowebinar.com/rt/8812127595217549827> *
