New Form Reminder: Only new forms will be accepted effective April 1, 2019: As of this date all results need to be submitted on the new [Results Form](#) & [Final Outcome Form](#). Old forms of any type will be denied after this date.

Form Submission Reminders: Please do not wait until results are known before submitting your ScreenWise Intake Packet. The Intake Packet is due within 5 days from the date of service. If it is not submitted until the results are known (holding intake packets to be sent along with completed results forms), then there is a good chance your patient will be billed by ancillary labs and imaging centers for non-enrollment.
