	End Notes
1	The type and duration of office visits should be appropriate to the level of care necessary for accomplishing screening and diagnostic follow-up for breast and cervical cancer related services.
2	Billing the global fee requires billing for the Technical (TC) and Professional (26) components separately.
3	Performed in a physician office.
4	These amounts apply when a physician performs the service in a facility setting.
5	Codes 19081-19084 are to be used for breast biopsies that include image guidance, placement of localization device, and imaging of specimen. These codes should not be used in conjunction with 19281-19286.
6	Codes 19281-19286 are for image guidance placement of localization device without image-guided biopsy. These codes should not be used in conjunction with 19081-19084.
	End Notes Continued
7	HPV DNA testing is a reimbursable procedure when used in conjunction with a screening Pap test, or follow-up of an abnormal Pap result, or surveillance as per ASCCP guidelines. HPV DNA testing is NOT reimbursable as a primary screening test.
8	CPT Code G0279 (3D Mammography) to be reported in conjunction with codes G0204 or G0206.
9	Breast MRI can be reimbursed by ScreenWise in conjunction with a mammogram when a client has a BRCA mutation, a first-degree relative who is a BRCA carrier, or a lifetime risk of 20-25% or greater as defined by risk assessment models such as BRCAPRO that are largely dependent on family history. Breast MRI can also be used to better assess areas of concern on a mammogram or for evaluation of a client with a past history of breast cancer after completing treatment. Breast MRI should never be done alone as a breast cancer screening tool. ScreenWise will not reimburse for a Breast MRI to assess the extent of disease in a woman who is already diagnosed with breast cancer.

CPT Code List and Provider Reimbursement Schedule Effective 01/09/2020 until further notice

Codes 19085-19086 are to be used for breast biopsies that include image guidance, placement of localization device, and imaging of specimen. These codes should not be used in conjunction with 19281-19288.
Codes 19281-19286 are for image guidance placement of localization device without image-guided biopsy. These codes should not be used in conjunction with 19081-19086.
A LEEP or conization of the cervix, as a diagnostic procedure, may be reimbursed based on the American Society for Colposcopy and Cervical Pathology (ASCCP) recommendations.
ScreenWise will only reimburse anesthesiology services accompanying a surgical procedure. Rates will be reimbursed at the rate of \$62.34 per unit, for a maximum of 8 units. The maximum allowed is \$498.72
CPT Code 77063 (digital breast tomosynthesis technology, DBT) to be reported in conjunction with code G0202.
ScreenWise will only reimburse the CPT code one time per client/BCCP ID
ScreenWise will only reimburse the CPT code up to two times per BCCP ID
ScreenWise will only reimburse one CPT code from the following set of codes: 81162, 81211, 81212, 81213
