

School-Based Health Centers (SBHCs) are medical clinics that offer a full range of physical, behavioral and preventive health services to all students, regardless of their ability to pay. SBHCs are located either within a school or on school grounds. By providing easy access to health care, SBHCs reduce barriers such as cost, transportation and concerns about confidentiality that keep parents and students from seeking the health services students need.

Please see the attached list of Oregon's certified SBHCs and service availability as of November 6, 2020.

For more details on specific SBHC hours of operations and how to access services, please contact the SBHC directly.
