A note about contracting...

- SBHC State Program Office (SPO) contracting policy change
 - Effective July 1, 2019
 - May or may not impact your county
- Local public health authorities may now “refuse” State SBHC funding & allow SPO to contract directly with medical sponsors

Current contracting policy

New contracting policy (as of July 1)

What does this mean for SBHC MHEG?

- If LPHA maintains State contract:
 - You will see no difference in your current mechanism for receiving State dollars
- If LPHA allows for direct contracting:
 - All State SBHC dollars (including SBHC MHEG) will go through the medical sponsoring agency
 - Medical sponsor would then subcontract for SBHC mental health services (if applicable)

**Reminder: These decisions will be made by EACH LPHA, so relationships may be different in different counties

What should you do?
