Oregon School-Based Health Center (SBHC) Data Appendix, 2020 – 2021

Data reported below includes the period from July 1, 2020 to June 30, 2021 and are from encounter visits and the SBHC State Program Office Operational Profile database.

Unless otherwise noted, this data is for all ages served in SBHCs.

SBHC encounter and operational profile data		
Data type	**Value**	
Number of certified SBHCs in Oregon	78	
SBHC population served	28,610 clients in 91,058 visits	
Number of Oregon school-aged youth (5–21 years) with access to an SBHC	65,072	
SBHCs with PCPCH recognition	49%	
SBHCs sponsored by FQHCs	74%	
SBHCs sponsored by LPHAs	30% (26% have FQHC status)	
	All visits	Visits (ages 5-21)
Health coverage status of SBHC clients at first visit — Medicaid	52%	60%
Private insurance	26%	23%
Reproductive Health Access Fund	1%	1%
Other public	8%	1%
None or unknown[1]	13%	15%
Average number of visits per client	3.2	
Male: percent of clients, percent of visits	45% clients, 39% visits	
Female: percent of clients, percent of visits	55% clients, 60% visits	
Other: percent of clients, percent of visits	0.1% clients, 0.3% visits	

---

[1] "None or unknown" categories include some clients who have insurance, but for whom insurance information is not captured in the data for a number of reasons: It is not a billable visit; it is a confidential visit, so insurance is not billed; student does not know or provide evidence of their insurance.

School-aged youth (5–21 years): percent of clients, percent of visits	60% clients, 61% visits
White: percent of clients White, non-Hispanic: percent of clients	76% 54%
Hispanic: percent of clients	24%
Black: percent of clients	3%
Asian: percent of clients	3%
American Indian or Alaska Native: percent of clients	2%
Native Hawaiian or other Pacific Islander: percent of clients	1%
Unknown race and ethnicity: percent of clients	10%
Percent of school-aged youth (5-21 years) who had a comprehensive well visit	44%
Percent of visits with an immunization administered	39%
Percent of visits with a reproductive health-related service	8%
Percent of visits via telehealth	33%
Oral Health	
Percent of visits with an oral health provider	1%
Number of school-aged youth (5-21 years) who received dental sealants	79
Number of school-aged youth (5-21 years) who received dental fluoride varnish	1,058
Number of school-aged youth (5-21 years) who received a dental screening	488

Behavioral Health	
SBHC population served by a behavioral health[2] provider	4,619 clients in 32,808 visits
Percent of visits with a behavioral health provider	36%
Average number of behavioral health visits per client	8.3
Percent of behavioral health visits via telehealth	54%
White: percent of school-aged youth (5–21 years) White, non-Hispanic: percent of school-aged youth (5–21 years)	80% 57%
Hispanic: percent of school-aged youth (5–21 years)	27%
Black: percent of school-aged youth (5–21 years)	4%
Asian: percent of school-aged youth (5–21 years)	2%
American Indian or Alaska Native: percent of school-aged youth (5–21 years)	4%
Native Hawaiian or other Pacific Islander: percent of school-aged youth (5–21 years)	1%
Unknown race and ethnicity: percent of school-aged youth (5–21 years)	6%

Student Satisfaction Survey Data

Each year, all certified SBHCs are required to survey a sample of clients aged 12 – 19 years who share their experience of healthcare services they receive during their visit at their SBHC. Surveys are completed by either iPad or paper form and are anonymous and confidential.

The number of SBHCs participating and student satisfaction surveys collected during the 2020-2021 school year was substantially fewer than usual. Thirty-eight SBHCs administered the survey to a total of 354 students between the ages of 12 and 19. Therefore, SPO is unable to provide student satisfaction survey data this year.
