

## Childhood Lead Poisoning Prevention Program Lead Screening Parent Questionnaire

Name of patient: \_\_\_\_\_ Date: \_\_\_\_\_

Age of child: \_\_\_\_\_ Health Care Provider: \_\_\_\_\_

This questionnaire is about lead. Lead is a dangerous material that sometimes gets into children’s bodies. It can make them sick, cause behavior problems and make it hard for children to learn. Answers to these questions will help the health care provider see if your child needs a blood lead test. If any of these questions are confusing, please ask the clinic staff for help. For more information, call the LeadLine at 1-800-368-5060 or 503-988-4000 in the Portland Metro area.

**Please circle your answers to the following questions:**

<b>Has your child lived in or regularly visited a home, child care or other building built before 1950?</b>	Yes  Don't Know	No
<b>Has your child lived in or regularly visited a home, child care or other building built before 1978 with recent or ongoing painting, repair and/or remodeling?</b>	Yes  Don't Know	No

# Possible Sources of Lead

## Occupational

Painters  
Home remodelers/renovators  
Construction/demolition workers  
Bridge maintenance/repair  
Auto body repairers/painters  
Battery manufacturers/recyclers  
Radiator repairers/manufacturing  
Furniture refinishers  
Plumbers, pipe fitters  
Roofers  
Lead miners, smelters, & refiners  
Glass, copper and brass manufacturers  
Boat builders/painters/repair/maintenance  
Ceramics making /glaze mixing  
Printers (ink)  
Plastic & rubber manufacturers  
Police officers  
Firing range instructors  
Steel welders or cutters  
Jewelry-making  
Gas station attendants  
Aircraft repair  
X-ray shielding/film radiology

## Hobbies and Related Activities

Home remodeling/renovation  
Car or boat repair  
Glazing/making pottery  
Reloading/target shooting at firing ranges  
Furniture refinishing  
Making/handling lead shot and fishing weights/sinkers  
Using lead soldering/welding  
Oil painting (artistic)  
Using pastel art pencils  
Making stained glass  
Jewelry making  
Using/making diving & exercise weights  
Repairing old painted wooden/metal toys

## Environmental/Other

### **Lead-based paint (pre-1978)**

Soil/dust near lead industries,  
roadways, lead-painted houses  
Plumbing and solder  
Cosmetics & hair dye  
Imported vinyl mini-blinds  
Imported ceramic tiles for the  
kitchen/bathroom  
Building materials:  
Gutters, flashing,  
tile, window glazing  
Ceramicware/glazed pottery  
Porcelain bathtubs
