

November 12, 2019

To All Oregon Newborn Bloodspot Screening Clients,

To more efficiently communicate with all clients, the Oregon Newborn Bloodspot Screening Program is collecting e-mail addresses for the facilities and providers that submit specimens to our laboratory.

Please provide your e-mail address to receive more timely notices about the program's changes and requirements, building closures, administrative rule changes, and more.

You may complete this in one of two ways:

1. Complete a brief online form at: www.bitly.com/nbs-contact.
 - a. To submit contact information for multiple staff members, simply complete the survey for each staff member.
2. Send an e-mail to Cheryl Balmer at cheryl.d.balmer@dhsosha.state.or.us. Please include your:
 - a. Submitter/facility ID (if known),
 - b. Facility or practice name,
 - c. Full name,
 - d. E-mail address, and
 - e. Role or title.

Please forward your request to anyone in your practices who may also need to receive these notices.

Thank you,

Christianne Biggs, MS
Manager, Newborn Screening Program
Oregon State Public Health Laboratory
