

COVID-19 Vaccine Administration Training Checklist and Attestation

MODERNA

Prior to Administration

Any staff assigned to administer the COVID-19 vaccine must complete required trainings for administration of each of the vaccines that have received emergency use authorization by the FDA.

Do you have official scope to administer COVID-19 vaccine in Oregon?

- **Find out here:** [OREGON VACCINATOR CATEGORIES](#)
- **Not on the list?**
 - **Option 1:** If your professional scope does not allow vaccine administration, you may be permitted to administer as an [unlicensed medical assistant](#) under the delegation and supervision of a license type with authority to delegate (see vaccinator categories). Submitting this attestation is a requirement to receive delegation as an “unlicensed medical assistant.” **Not all sites are delegating.**
 - **Option 2:** Vaccinate through [OHA’s Authorization of the PREP Act Vaccinator Workforce Expansion](#)
 - [PREP Act Authorization Explainer and Frequently Asked Questions](#)
 - You must track your completed requirements, based on your professional status, and send evidence of completion to SERV.OR@state.or.us.

OPTIONAL: For Continuing Education Credit, visit <https://tceols.cdc.gov/> and complete 9 registration steps

All staff administering the COVID-19 vaccine, regardless of scope, must complete the following training.

Required

OHA Vaccine Training Modules (Moderna)

1. **OHA Moderna Required Trainings:** [COVID-19 Training for Vaccine Providers](#)

CDC Vaccine Training

**Required for vaccinators needing delegation as an “unlicensed medical assistant”*

1. **CDC Module:** [General Overview of Immunization Best Practices for Healthcare providers](#)
2. **Review:** [Understanding the Vaccine Adverse Events Reporting System \(VAERS\)](#)

Recommended

CDC Reference for COVID-19

1. [Moderna General Information](#)
2. [CDC Vaccine Administration Resource Library](#)
3. [COVID-19 Vaccination Training and Reference Materials](#)

[ALERT IIS Standard User Training](#) (RECOMMENDED AND HIGHLY IN NEED)

The statewide immunization registry providing consolidated immunization histories for use by vaccination providers and data that guides public health action to reduce vaccine-preventable disease. **When mobilized, you will be assigned access under a provider entity (health department, hospital, etc.) If you participate in multiple deployments under different entities, you will need access reassigned for each deployment.**

Cultural Humility and Responsiveness Training

1. [Effective Communication for Healthcare Teams](#) - Health Literacy, Cultural Competence, Limited English Proficiency. This interactive training course, aims to raise the quality of interactions between health care professionals and patients by providing an interactive guide to understanding health literacy, cultural competency and limited English proficiency.

I have completed and understand all the required training in order to administer the Moderna COVID-19 vaccine when volunteering with SERV-OR/ODMT. **Sign or e-sign and attach to [THIS FORM](#) for credit.**
