

Running List of 2024 OPAB Recommendations

February 2, 2024:

- Recommend 6 hours of approved annual continuing education be required for facilitators as a requirement for renewal, and continuing education be considered for service centers and manufacturers. Content should be specific to psilocybin services and should include but not be limited to emerging safety and ethical issues, updated rules, new research, adverse events, review of social equity plans and considerations related to increasing access, dosage and efficacy. OPS should consider availability and cost of continuing education in adopting rules to require continuing education.
- Recommend that OPS consider an annual fee for training programs
- Recommend that OPAB support creation of a charitable grant program or similar fund that would be able to receive funding from multiple sources for the purpose of increasing access to psilocybin services for clients who are economically or socially marginalized.
- Recommend that OPAB support creation of a charitable grant program or similar fund that would be able to receive funding from multiple sources, including state funds, for the purpose of increasing access to psilocybin services for clients who are economically or socially marginalized.
