Informed Consent

(1) A facilitator must provide every client a copy of the following informed consent document during the client's preparation session:

Introduction:

In the State of Oregon, psilocybin services include a preparation session, administration session, and integration session. You should receive this informed consent form prior to or during your preparation session. During the preparation session, your facilitator will review and discuss this form with you. Please make sure you read and understand every section because you must sign the form before the administration session begins. If you do not understand any part of this document, please ask your facilitator for clarification before signing.

I have been informed of and understand the following:

(Please initial each item below)

- 1. ____ I have reviewed the Psilocybin Services Client Bill of Rights, my facilitator has explained it to me, and I understand my rights as a client.*
- 2. ____ I understand that psilocybin services do not require medical diagnosis or referral and that psilocybin services are not a medical or clinical treatment.*
- 3. ____ I understand that psilocybin has not been approved by the Food and Drug Administration and the federal government currently classifies psilocybin as a Schedule I controlled substance under the Controlled Substances Act.*

- a. *Federal law prohibits the manufacture, distribution, and possession of psilocybin even in cities and states that have adopted laws to allow its possession or use.*
 - b. *Despite its federal Schedule I status, research suggests that psilocybin is very unlikely to be addictive. Additionally, research and other information suggests that psilocybin may improve symptoms of depression, anxiety, end of life distress, various forms of trauma, and problematic substance use.*
4. *_____ I understand that while existing research has shown promising results, the risks, benefits, and drug interactions of psilocybin are not fully understood, and individual results may vary.*
5. *_____ I understand that some people have found psilocybin administration sessions to be challenging or uncomfortable. Common potential side effects include nausea, mild headache, fatigue, anxiety, confusion, increased blood pressure, elevated heart rate, paranoia, perceptual changes, altered thought patterns, reduced inhibitions, recovery of repressed memories and past traumas, and altered perception of time and one's surroundings. If they occur, these side effects are usually mild and temporary. Because the potential risks and benefits of psilocybin administration are not fully understood, there may be unanticipated side effects.*
6. *_____ I understand that if I am taking prescription medications or have a medical condition or mental health condition, I should consider consulting with a medical or clinical provider before participating in an administration session.*

12. *___ I agree to follow my agreed upon transportation plan. I understand that a facilitator may contact emergency services if failure to follow my transportation plan presents a risk to my safety or the safety of others.*

14. *___ I understand that I have the right to update my client information form prior to beginning an administration session and I have the right to receive a copy of my client information form upon request.*
15. *___ I understand that de-identified data collected by my facilitator or service center may be shared with people and institutions outside of the facilitator or psilocybin service center for research and other purposes.*

(3) The requirements of subsection (1)(b) of this rule do not apply, during the first 15 days following the harvest of fruiting bodies or mycelium, daily reconciliation by a manufacturer of the weight of moisture lost to evaporation is not required. The weight of moisture loss must be reconciled by a manufacturer prior to transferring, processing, selling, or packaging the fungi and no later than 15 days after the harvest, whichever comes first.

(4) The requirements in subsection (1)(b) of this rule do not apply during the first fourteen calendar days of licensure for a service center, manufacturer or laboratory licensee so long as the licensee, has ordered unique identification tags and unique identification tags are in transit to the receiving party.

(5) The requirements in subsection (1)(b) of this rule do not apply to psilocybin products held by a laboratory licensee that are undergoing analytical testing required by these rules so long as the psilocybin products do not leave the laboratory's licensed premises and are reconciled on the same day that the analytical testing concludes.

(6) In addition to the requirements in section (1) of this rule, service centers must record each sale or transfer of a psilocybin product to a client as a sales transaction and record the price before tax and amount of each item sold and the date of each transaction in the psilocybin tracking system for each individual transaction.

Product Tracking - Unique Identification Numbers

(1) A service center, manufacturer or laboratory license must:

(a) Use unique identification tags issued by an Authority-approved vendor that is authorized to provide unique identification tags for the psilocybin tracking system. Each licensee is responsible for the cost of all unique identification tags and any associated vendor fees.

(b) Have an adequate supply of unique identification tags at all times, except during the first 14 calendar days of licensure so long as unique identification tags have been ordered and are in transit to the licensed premises.

(c) Assign and affix a unique identification tag to each separated area containing a cultivation batch of mycelium or fruiting bodies as described in OAR 333-333-8230.

(d) After harvest, assign and affix a unique identification tag to all psilocybin products or receptacles containing psilocybin products.

(e) Assign and affix unique identification tags in a manner that:

(A) Establishes an accurate record of cultivation, harvest and drying of fungi, including documentation of harvest lots and batches as described in OAR 333-333-2020 and OAR 333-333-7090.

(B) Establishes an accurate record when one psilocybin product is converted to another product type.

(C) Uses a new unique identification tag each time a psilocybin product is added to a quantity of psilocybin products grouped together under a pre-existing unique identification tag.

(f) Place tags in a position that can be clearly read by an individual standing next to the item.

(g) Keep tags free from dirt and debris.

(2) To allow for a drying period, the requirements of subsection (1)(e) of this rule do not apply to harvested mycelium or fruiting bodies in the first 15 days after harvest.

(3) The requirements of section (1) of this rule do not apply to psilocybin spores or mycelium that are in a preproduction process at a manufacturer's licensed premises.

(4) A manufacturer licensee may not combine psilocybin products of different size, potency, or type under a single unique identification tag, except for:
